## "Cardiac Kids" Win

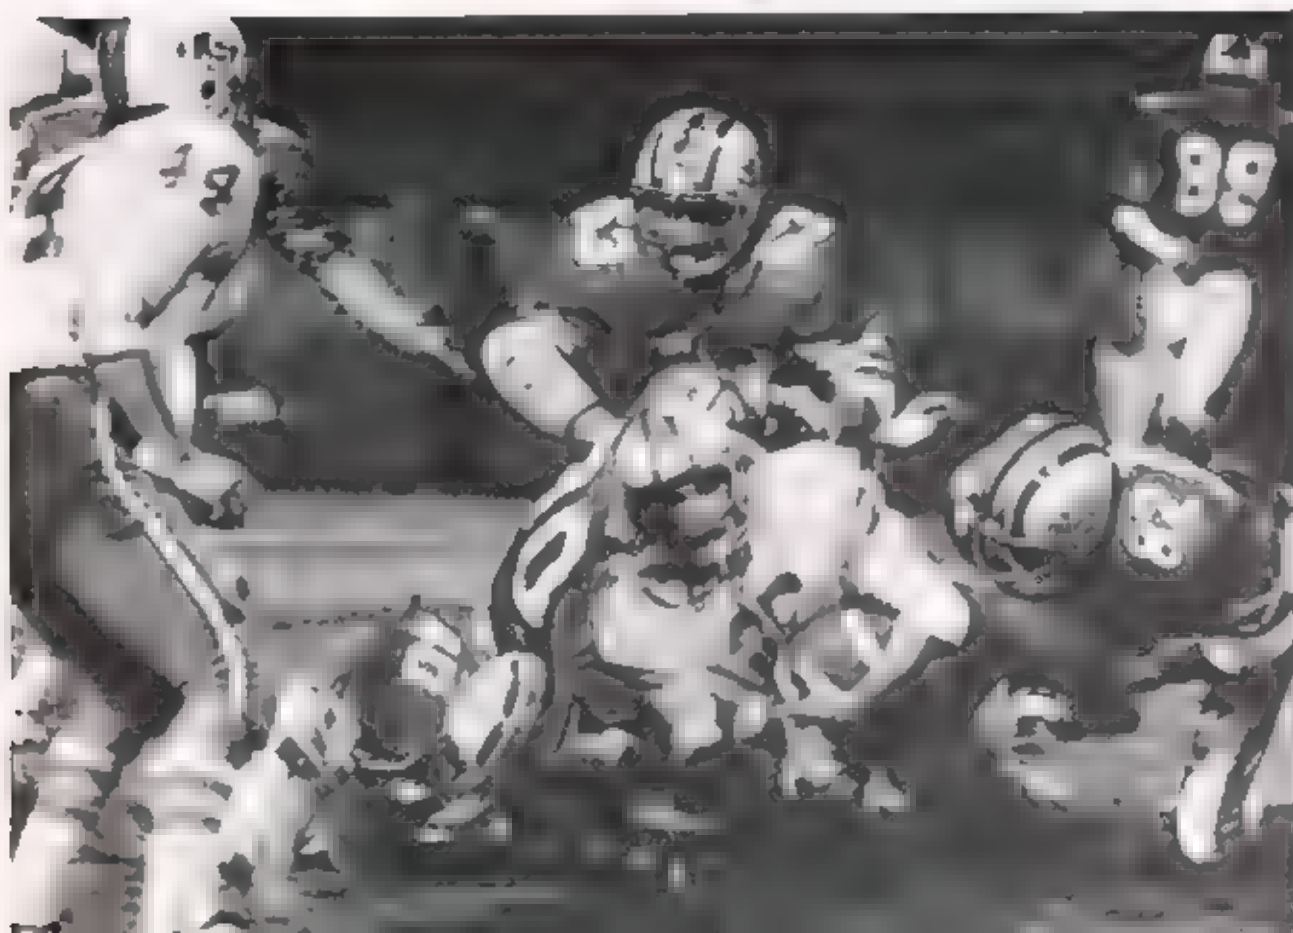

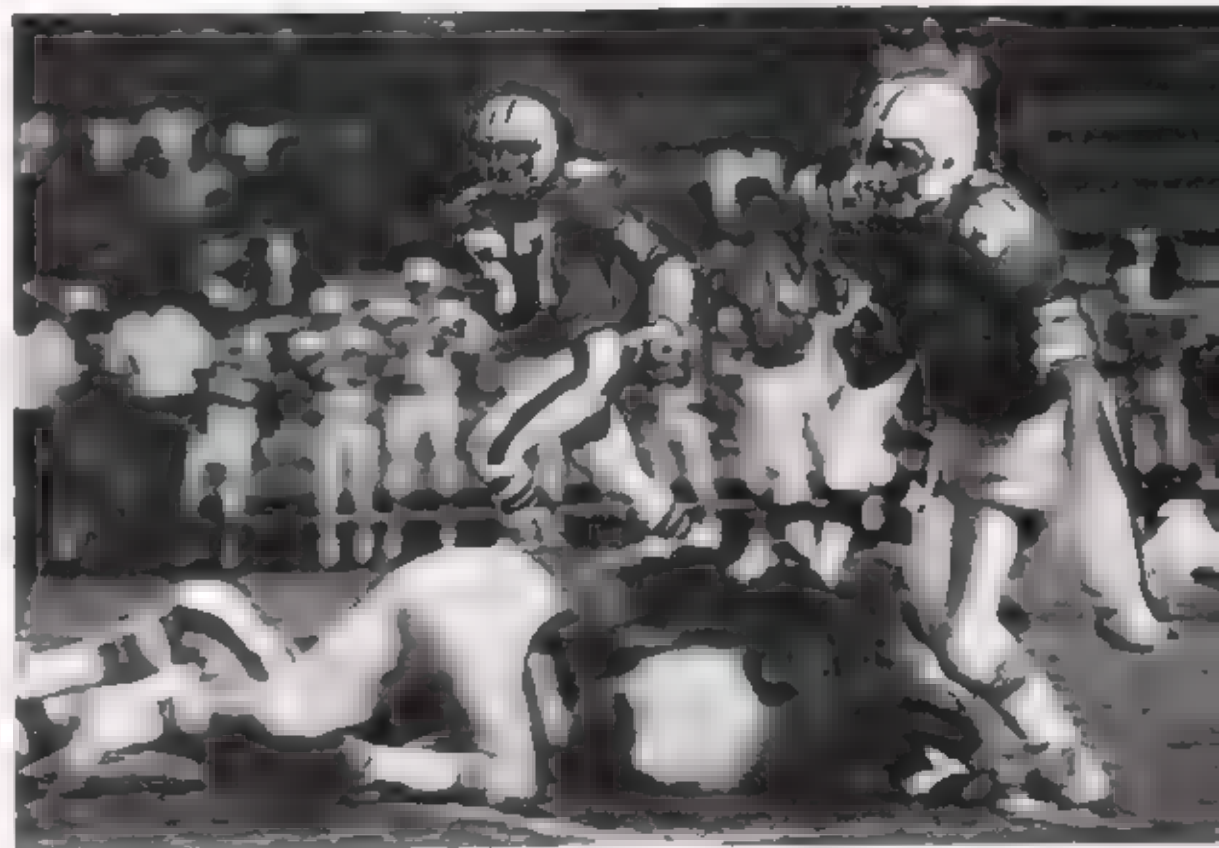

Affectionately called the "Cardiac Kids" by Saint fans and not so affectionately called the "Dirty 30" by other teams, the Saints went once again to C.I. F. Playoffs leaving the season with a record of 8-2-1.

Coach Bob Larson, who was named Century League Coach of the Year, contributed the surprising success of undersized Saints to the strength of the team as a unit. Versatility was the Saints' most important advantage as our team of twenty-eight moved into C.I. F. Playoffs, defeating San Gabriel 28-7 in the first round of playoffs.

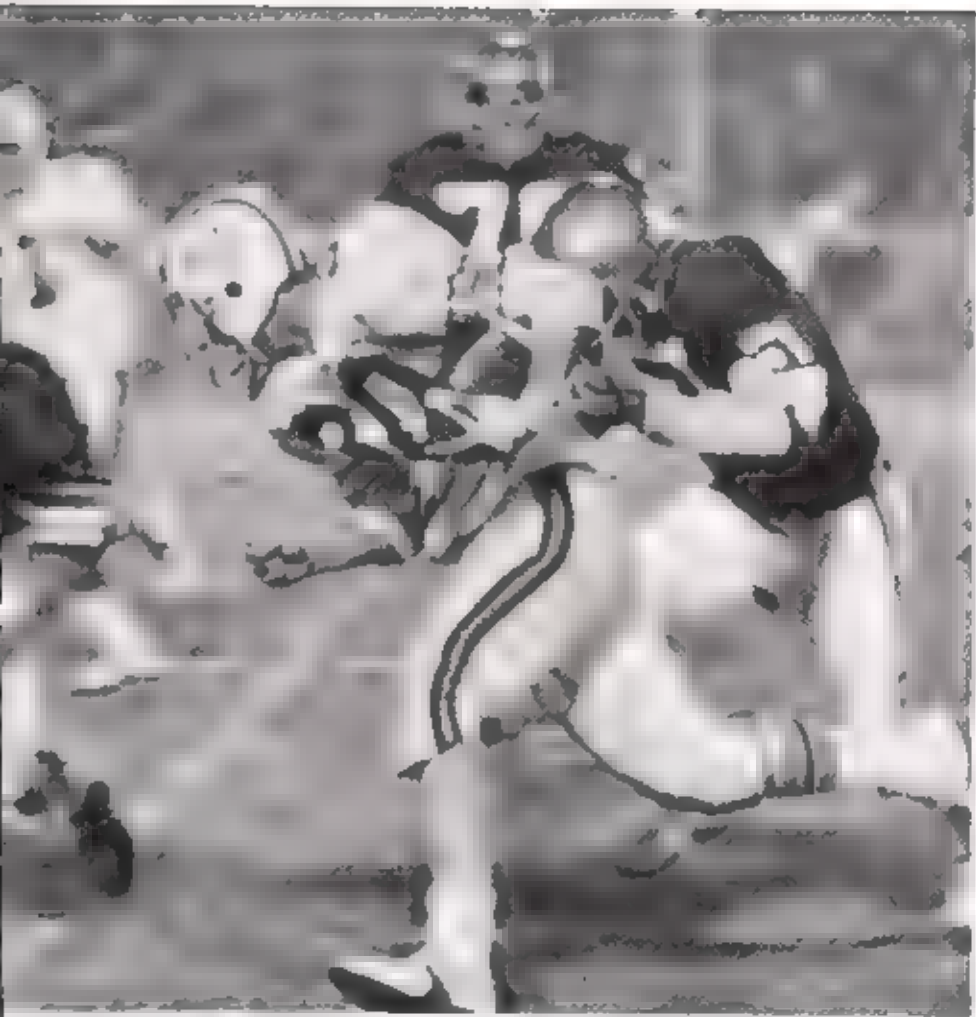

However, undefeated La Serna proved to be too much for the Saints as they lost 21-6.

Voted to the Century League "All-Stars" were Chuck Hogg, Tim Smith, Bob Brown, Mike Area, and Ray Johnson. Chuck Hogg was also named Back-of-the-Year.

Also honored at the annual football banquet were Chuck Hogg, Most Valuable Player and Offensive Player of the Year; Tim Smith, Saint of the Year; Andy Bonsall, Lineman of the Year; Bob Brown, Defensive Player of the Year; Scott Koch, Most Improved; Johnny Herrera, Most Inspirational and John Stauffer, Scholar of the Year.

The Saints opened the season with a nip and tuck 13-8 decision at the Santa Ana Bowl over its non-league opponent, Buena Park.

Throughout most of the game both teams worked out their rusty procedures, but as the seconds ticked away, the "New Saints" proved to be superior over the Coyotes. Saints of the Week: Chuck Hogg and George Vega.

S.A. 27 Troy 20

Traveling to La Habra to face their hard-nosed opponents, the Troy Warriors, the "Fighting Saints" were eager to snatch their second win. Almost outnumbered 2 to 1, the Saints demonstrated their inept ability to control the ball through dazzling performances which proved to be too much for the Warriors. The Saints left La Harba with a 27-20 victory. Saints of the Week: Jeff Naeve and Ed Salcido.

S.A. 0 E.M. 6

The following week, the Saints were halted in their tracks. Having their passing and running attacks snipped down to very little, the desperate Saints were unable to put points on the board. The Vanguarders were halted also but were able to boot a 6-0 victory through the goal posts and the Saints lost their chance to beat the undefeated league champs. Saints of the Week: Bob Brown and Andy Bonsall.

S.A. 18 Mag. 6

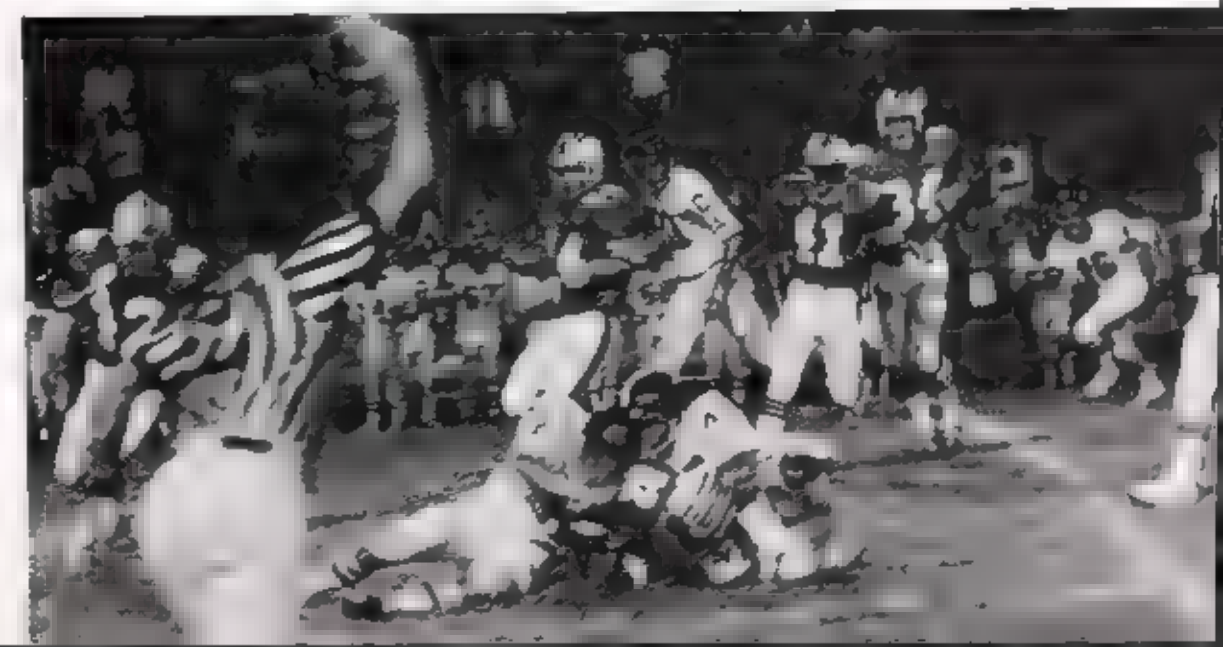

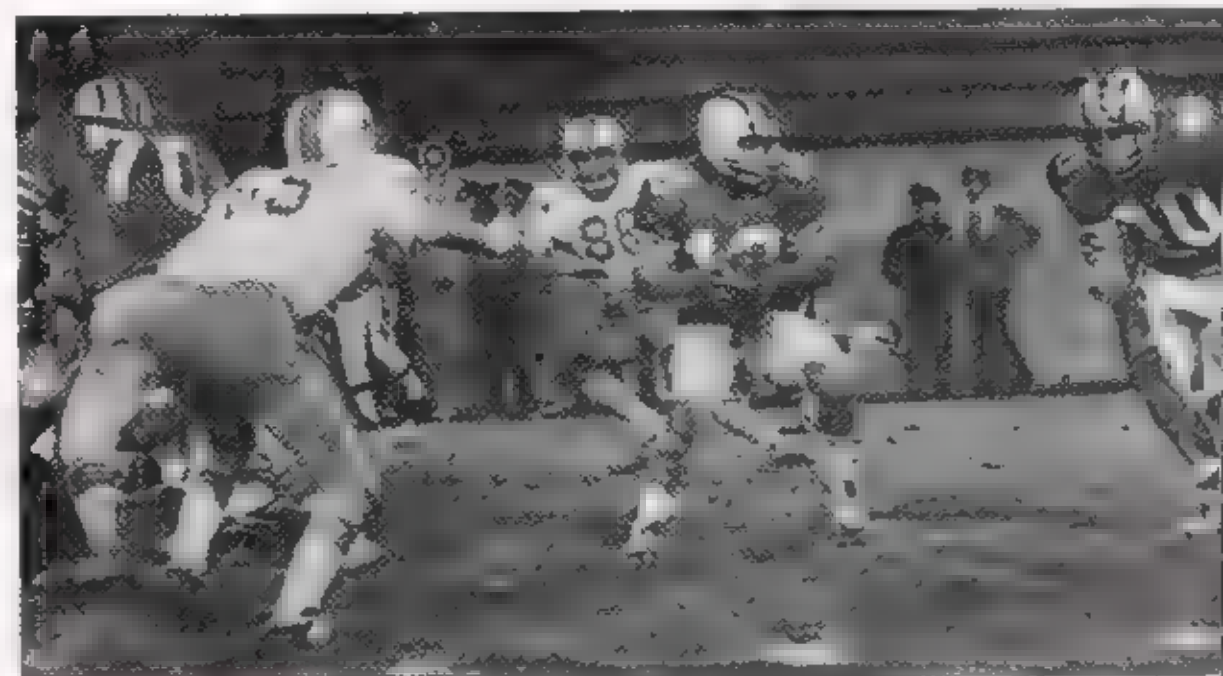

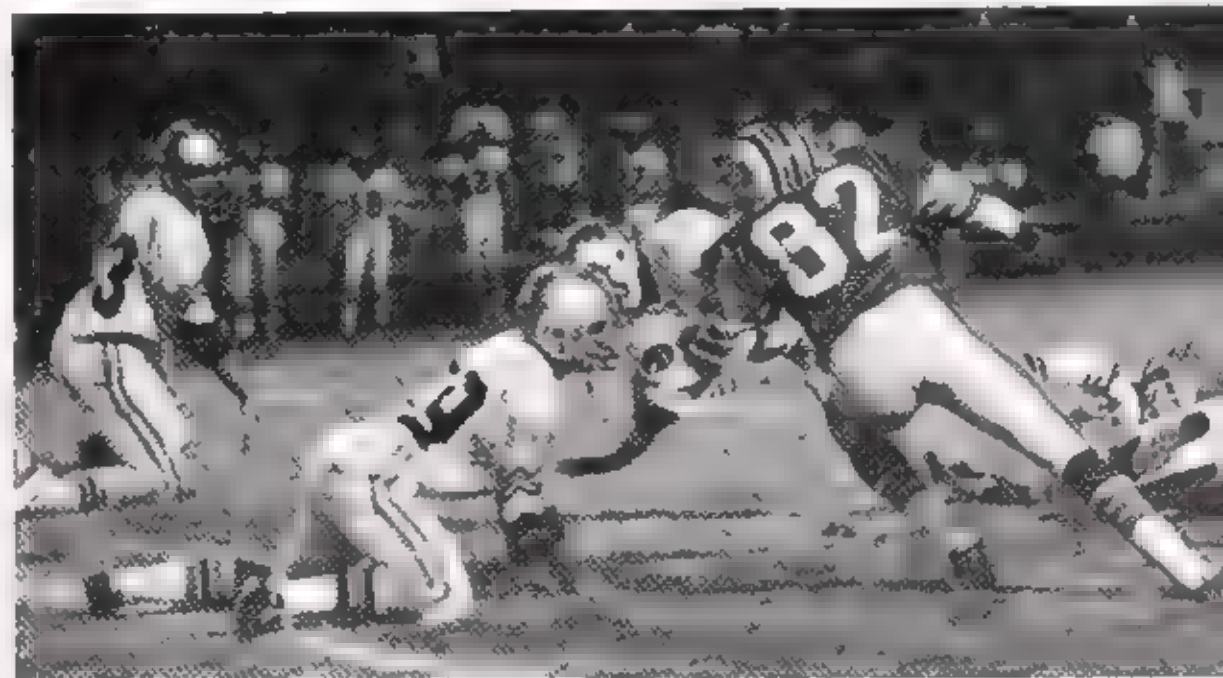

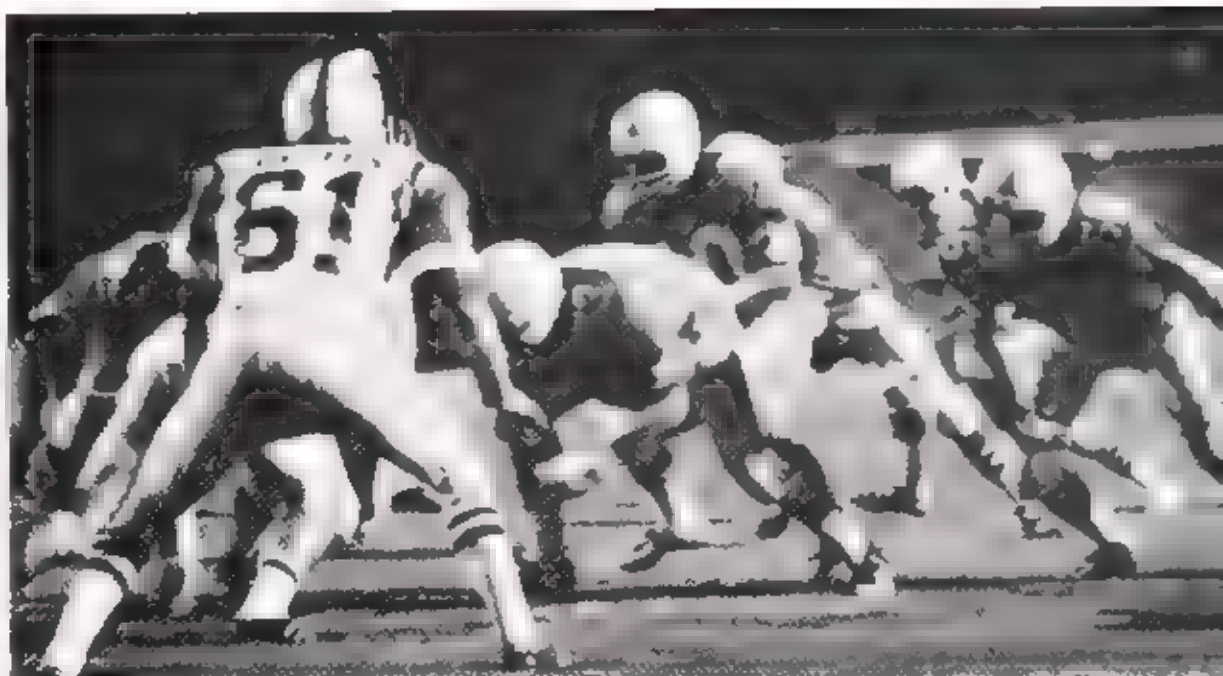

Suffering from last week's defeat, the Saints were pressured to beat the Sentinels to stay in league competition. In the third quarter the stadium lights went out delaying the game 40 minutes. When the lights came on, so did the Saints, and the rallied two more scores to unanimously win 18-6. Saints of Week: Tim Smith and Ray Johnson.

S.A. 7 V.P. 3

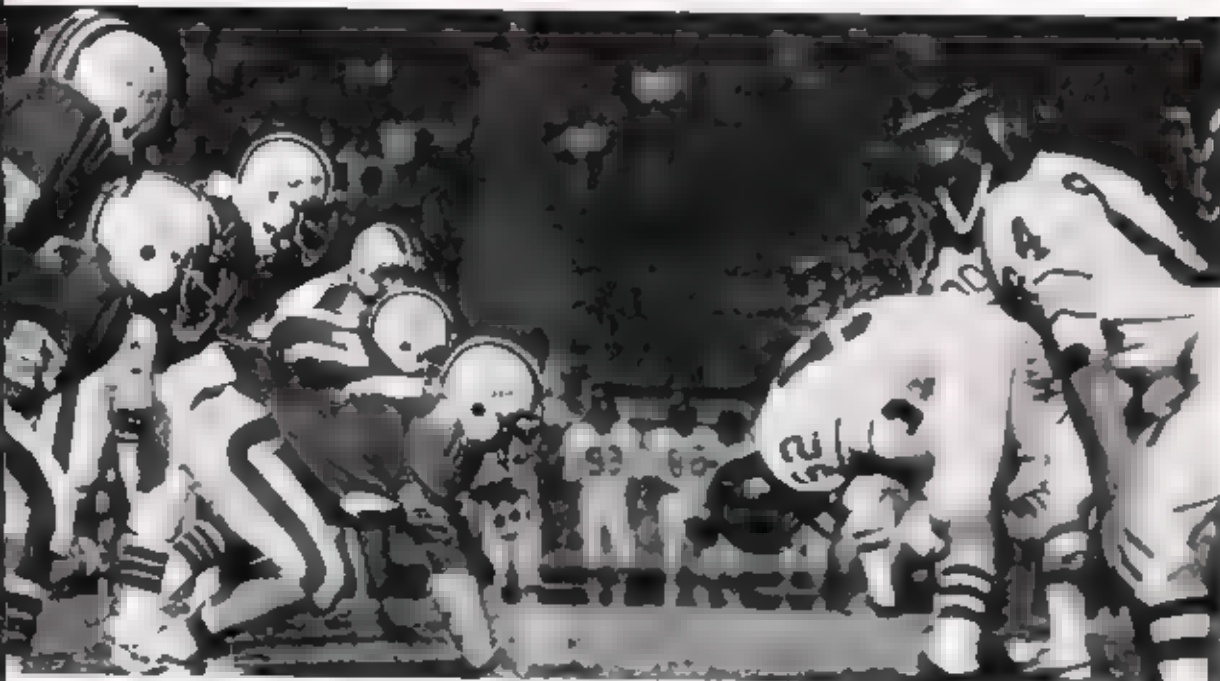

It was homecoming night and the Saints were scheduled to meet the #2 ranked power, Villa Park. Throughout almost the whole game, Villa Park lead by a measly score of 0-3, but with 46 seconds left on the ticker, Scotty Koch popped over the goal line, resulting in a Saint Victory of 7-3. Saints of the Week: Scott Koch and John Stauffer.

S. A. 27 C.D.M. 19

Pushed by the championship goals, the feared Saints visited the Sea Kings at Davision Field. Trailing at half time with a score of 6-12, the Saints got tough and rallied 21 more points to drown the Sea Kings 27-19. Saints of the Week: Mike Area and Doug Cast.

S.A. 15

Est. 14

It was a cold but exciting night at the bowl when the Saints met the underestimated Eagles. Fourth down on Estancia's 10 yard line and 40 seconds remaining with a losing score of 12-14, Bob Brown calmly stepped up to successfully kick his first field goal. The fans sighed in relief as the score remained 15-14 and the Saints acquired the nickname "Cardiac Kids." Saints of the Week: Craig Hunter and Ed Salcido.

S.A. 27

C.M. 18

The "Mighty Saints" jogged off Davison Field at halftime losing by a score of 6-10 while the crowd sat wondering. Exploding in the third quarter, Santa Ana poured in touchdown after touchdown to easily capture the Mustangs 27-18. Saints of the Week: Mike Gallanes and Jeff Naeve.

S.A. 21

Tustin 21

Having a definite spot in the playoffs, the Saints traveled to tangle with the Tillers. Mistakes in ball handling by Santa Ana proved to be costly. With about one minute left, Tustin managed to score, bringing the game to a deadlock as league action came to an end. Saints of the Week: Jim Peralta and Tim Smith.

CIF

For the second year in a row, the determined Saints earned the right to participate in the CIF AAA Playoffs. Surprising the league critics with a record of 5-1-1, the Saints were now preparing themselves for the big games to come.

S.A. 28

S.G. 7

The first game on the list was against San Gabriel from the Whitmont league. In the first half the Matadors were unable to stop the "Mighty Saints" driving power, as the score read 21-0. In the second half the Mats came on strong but were unable to tally up the necessary points and the game ended 28-7. Saints of the Week: John Herrera and Jim Vitelli.

S.A. 6

L.S. 21

At home again, the "Fighting Saints" battled against the undefeated La Serna Lancers. The soggy and slippery field bogged down the Saints necessary quickness and the Lancers were able to lead the entire game. But with 4:20 left to play the Saints were able to score to keep from being shut out. The score read 6-21, ending the miraculous season of the Santa Ana Saints. Saints of the Week: Robert Arostique and David Reyes.

## Soph Football

At the end of the '75 season, Coach Bill Ross and Coa Wiley Carlyle had a top flight Sophomore team with an impressive record and a great promise for the years to come. Its success, according to the coaches, was due to its rugged aggressiveness and good team work. The excellent spirit was also an important factor. The "Super-Sophs" won all their games and merged as Century League Champions.

## Frosh Football

The Freshman team, large in number, conveyed much spirit this season. Their desire to win was great, but due to a series of unfortunate mistakes, the freshman season turned to be below the standard of Coach Stan Gordan.

## Varsity Water Polo

The Varsity aquamen struggled through a tough Century league season in '75 as they were thrown into the pool "and left for the sharks," against such powers as Corona del Mar, Costa Mesa and Magnolia. Although suffering from the lack of bodies (7-10 per game depending on who was sick and who got kicked off the team), Bob Shupp and Ed Bartlett coached the Saints and managed to have some fun and, in fact, brought home some gold. Thoroughly enjoyed this year was the 27-8 thrashing of Magnolia and the trophy won as the consolation champ of the Villa Park tournament.

Up against rough competition such as undefeated Corona Del Mar, the Saints fielded a team of four returning Varsity players. Their experience, combined with the excellent coaching of Jeff Watts, led the Saints to a respectable finish in a tough league.

Excellent playing by Yancy Sasan and Tom Anderson gave the Saints the needed strength to overpower opponent after opponent. Coaching by Pat Quinn helped the J.V.'s to perfect their techniques and apply them to bring Santa Ana a winning season.

# Frosh/Soph Basketball

Leaving the season with a 10-10 record, the Frosh Hoopsters brought the Saints a 3rd place standing in the Century League. They were coached by Brucie Nelson.

The Sophs took an impressive standing in the league with a 7-13 record. The Saints prospered with coaching by John Sherman, but were left short when Herman Brown, star player moved up to Varsity.

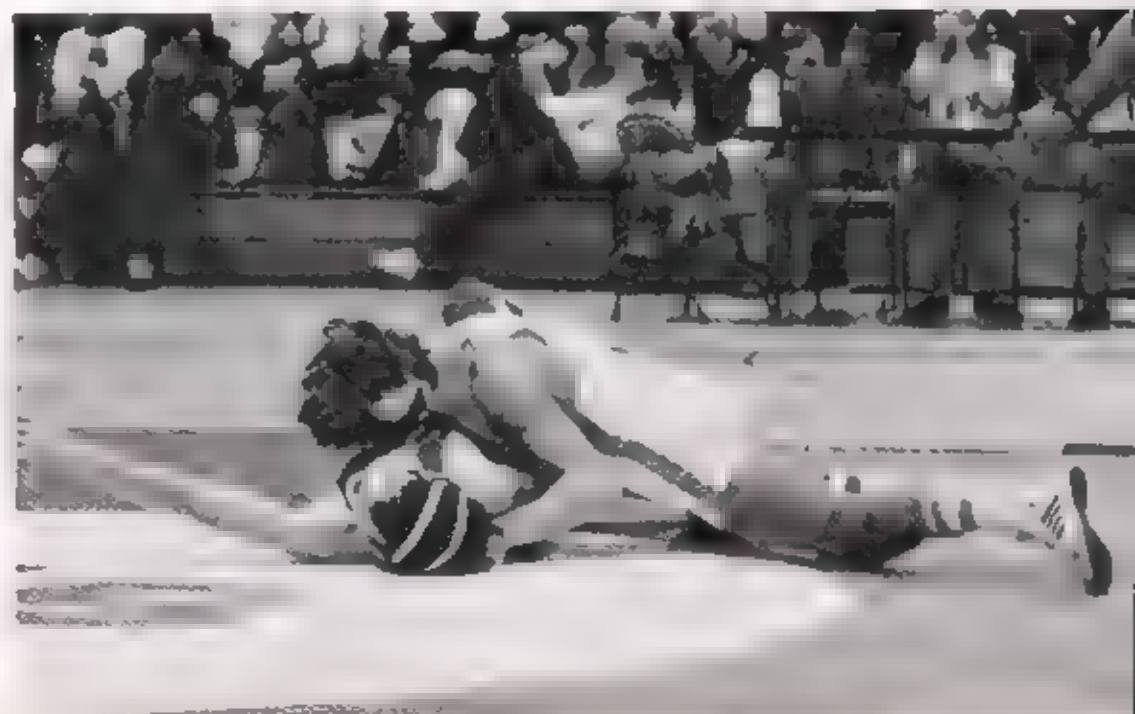

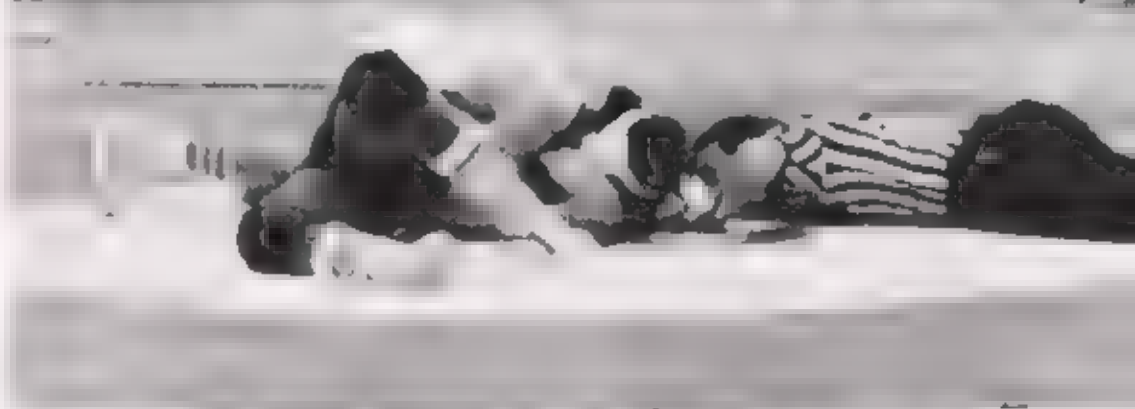

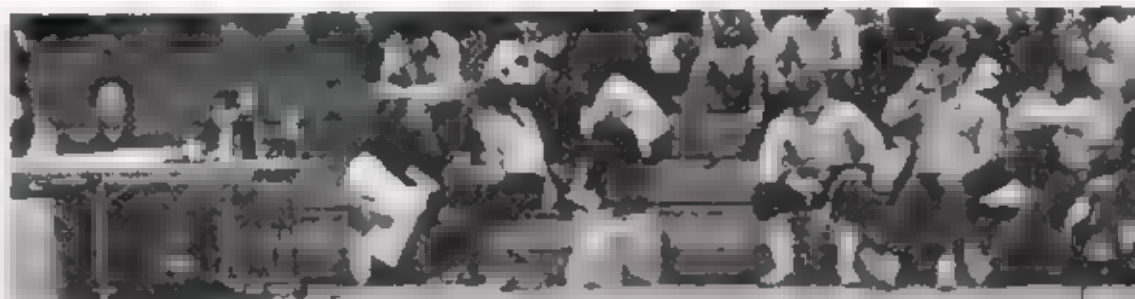

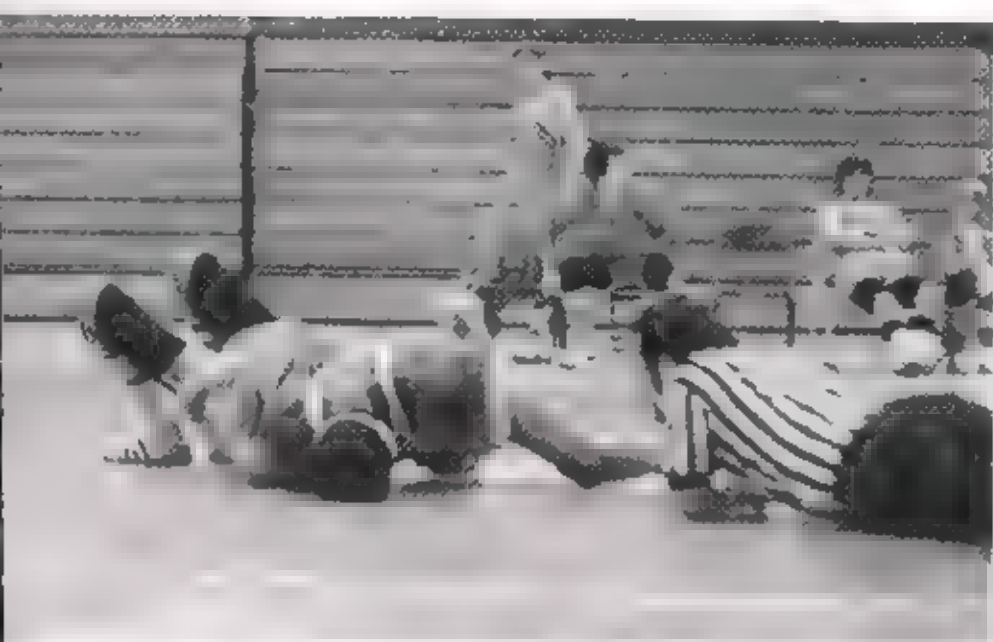

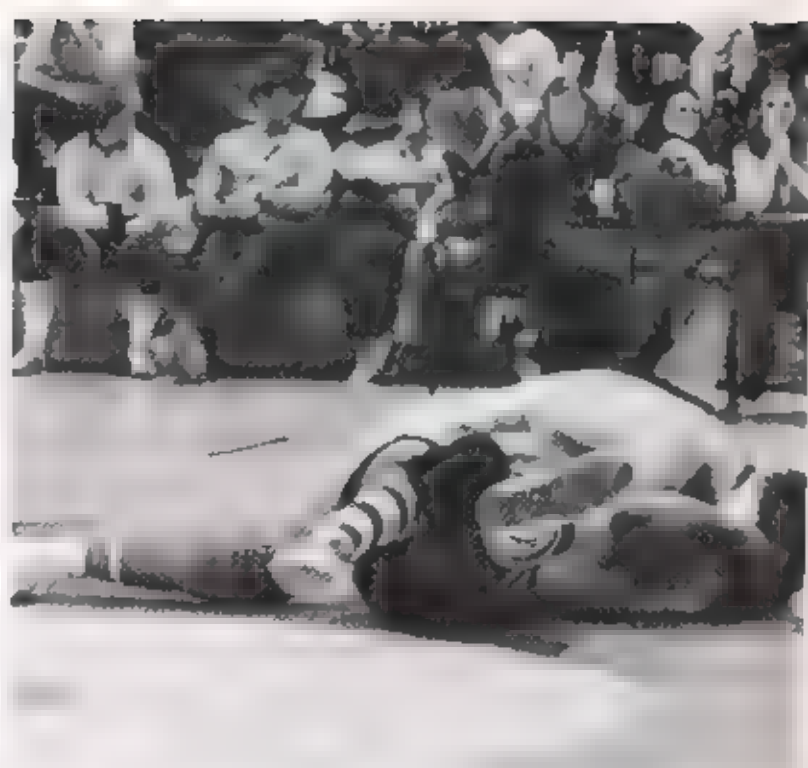

## Varsity Wrestling

The Saint varsity, led by Big Daddy, had their best season ever with a 15 and 6 record. Although only third in league, the grapplers were unstoppable in tournament play. At Dana Hills the saints took fourth, and took second at Valencia and University tourneys. At Anaheim the wrestlers exploded, blowing out everyone and taking first. They then proceeded to the City tournament and wrapped up another first. At their own tournament they finished second. Team captain George Vega, the high scorer of the season, took first in Orange County. Others named by Coach Linder were Leo Kulp, Andy Bonsall, Mike Area, and Dan Poencet.

The entire defensive unit was excellent, with Freshman Jorge Marquez, and Francisco Lozano standing out. The offensive line was led by two aggressive forwards, Victor Maldonado and Crisanto Pena, who were also the high scorers for the team.

But the swimmers did turn in many fine individual efforts, shown by Jeff Angier taking 1st in the League meet in the consolation 100 backstroke.

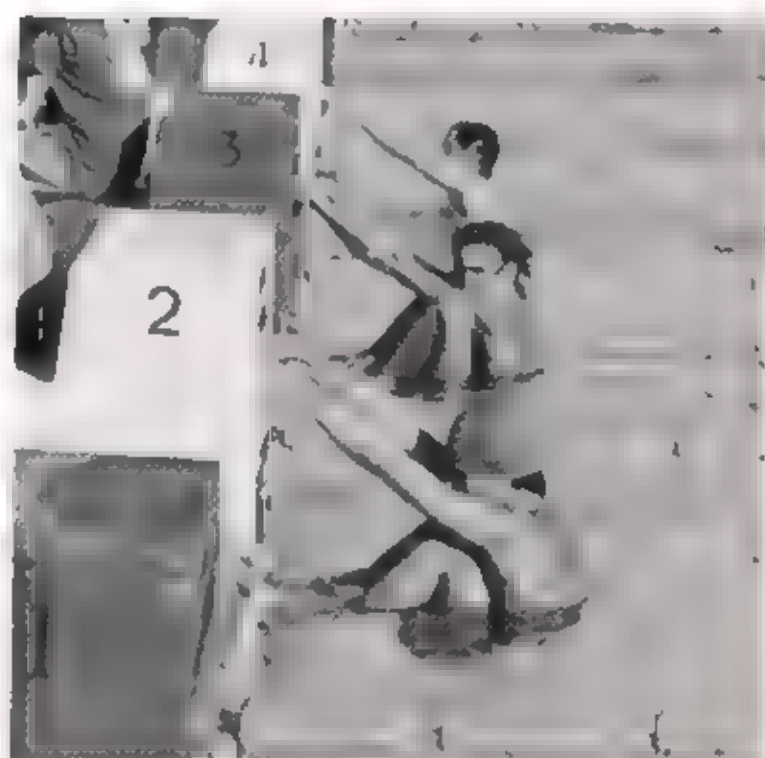

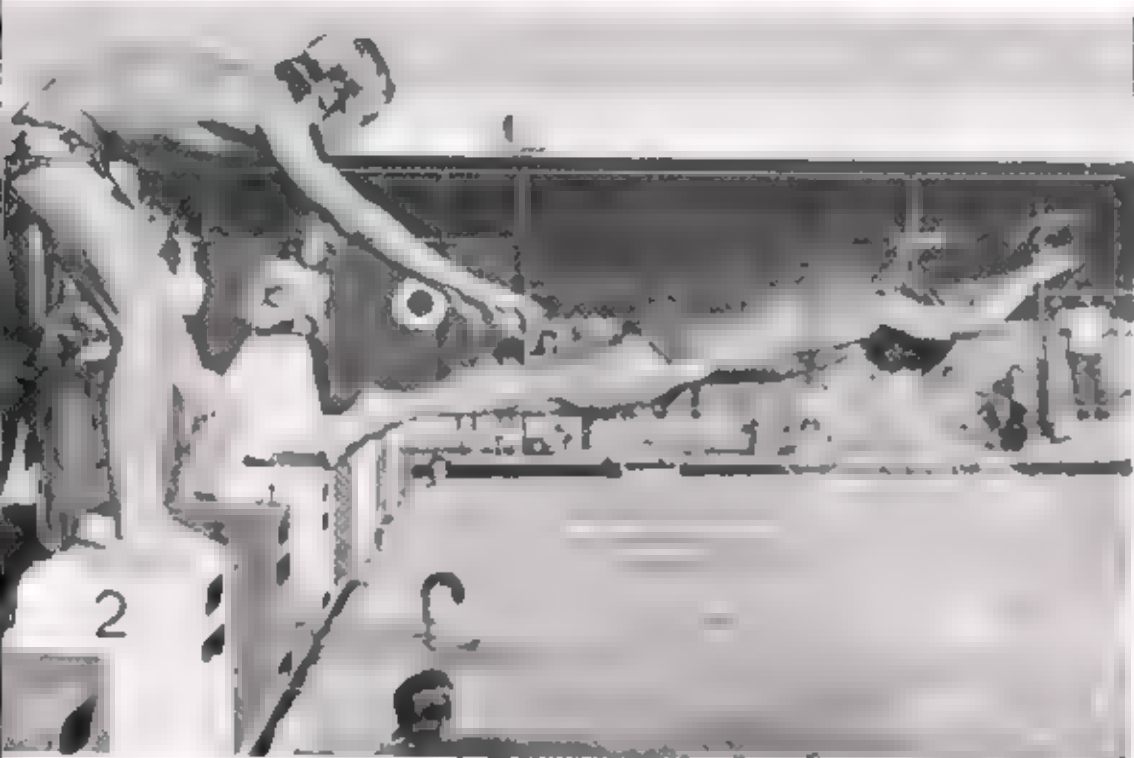

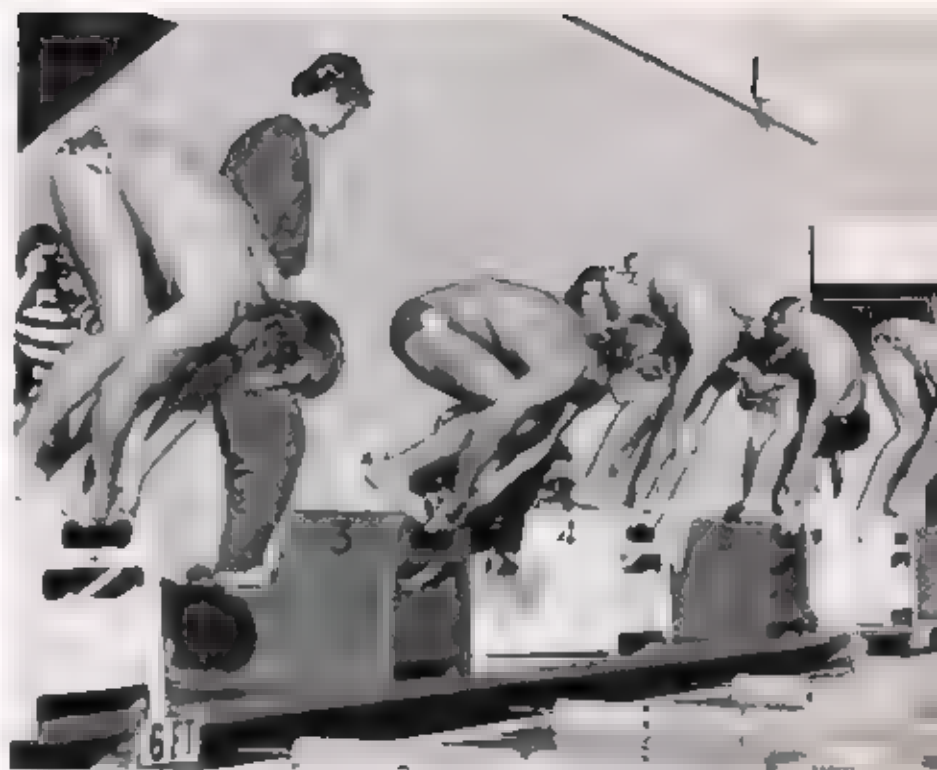

David Stone took 2nd and Tom Degree placed 6th. The Medley Relay team placed 3rd in League and was comprised of all first year swimmers; Jeff Angier, David Stone, Steve Amaya and Jim Moore.

The Soph-Frosh teams look very promising this year. Almost undefeated in league competitions, the Soph-Froshs managed to win League. Standouts on the team were Jerry Gauthier, Herb White, and Bruce Farmer.

# Varsity Golf Swings

at Santa Ana River View Golf Course. The Saint Linkmen had a very impressive season this year. Holding their matches at Santa Ana Country Club, the Linkmen gave their adversaries numerous difficulties. Led by their new coach Dave Hellman, they drove their opponents down the fairway and into the sand traps. Seniors

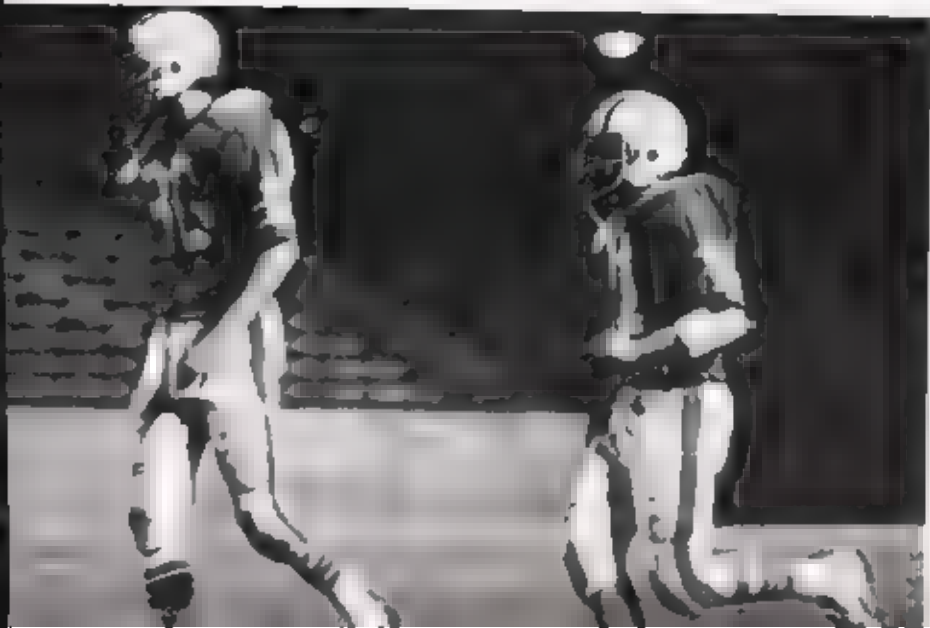

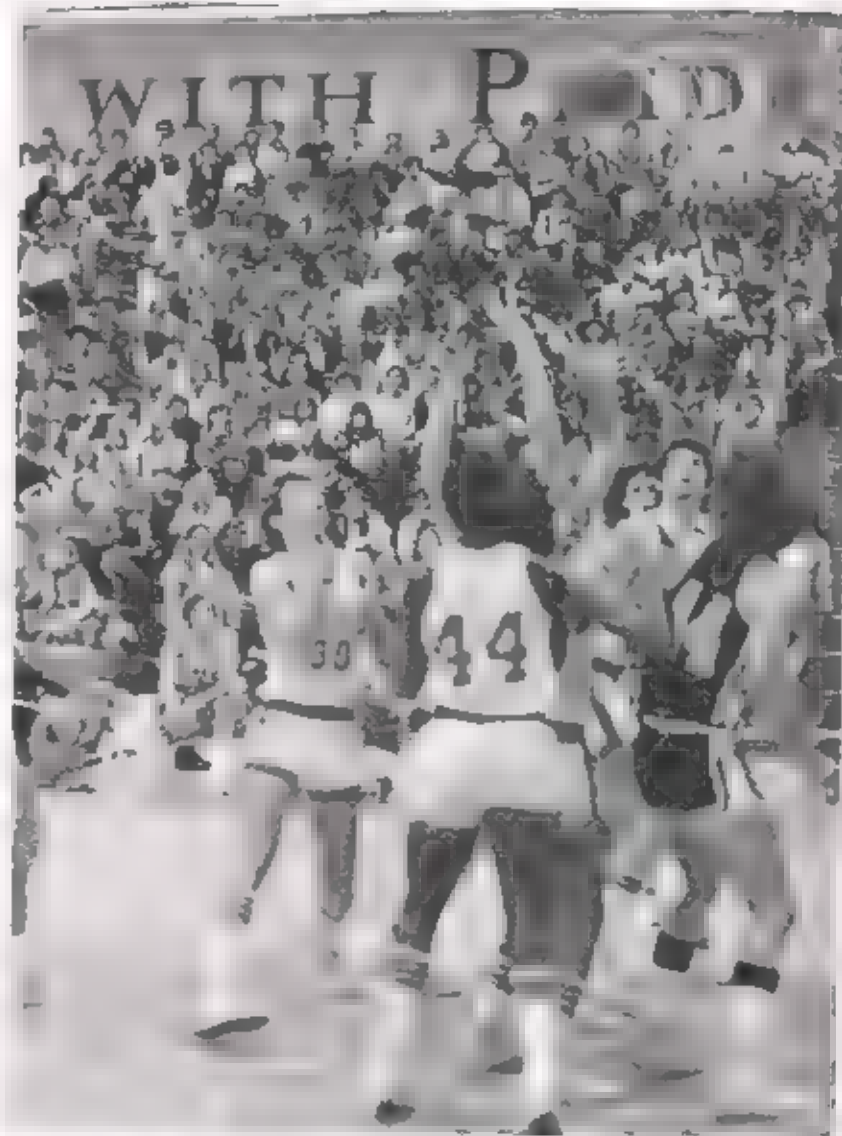

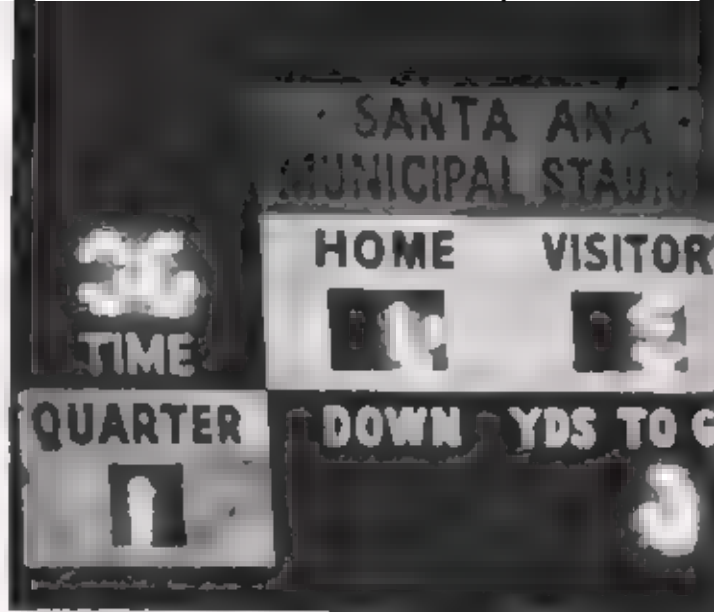

Kurt Nault, Louis Ceja and Junior Russel Weinraub were the veterans on the team. Though freshmen Bill Squire and Paul Wyrick did not fair that well this year, they are expected to bring much success to future golf teams. After a slow start sophomore Mike Maloney improved immensely and became a strong asset to the team. With four of the six golfers returning next year, Coach Dave

Hellman was quoted as saying "We have not yet begun to fight."

## Girls C.I.F. Varsity Basketball

Girls' CIF Varsity Basketball worked hard and diligently all season. They were predicted as League champions and produced a number of very good players. Practicing almost 3 hours a day and on Saturdays, they proved capable and competent players. Standouts were Pam Smith, Brenda Steward, and Val Crawford.

The Junior Varsity team faltered and never got off the ground (to shoot or for rebounds.) Sharon Sasan, a very good ballhandler, and Tracy Cocoa, outside shooter, were the main elements of this team.

The coaching staff was aided by the new JV coach Patty Schnell. Her experience and knowledge of the game boosted the girls in competition.

Our outstanding players were Diane Case leading the singles and Tangi Fields and Maura Whitfield on top for the doubles. With only four graduating Seniors on the Girls' CIF Tennis team, they practiced and set their hopes high for next fall when the tennis season begins once again.

What a week! Peanut Butter, cracker and whistling contest, marshmallow eating contest (sophs win with 68 in 57.5 seconds), water balloon throwing contests, and a fantastic pep assembly amused the Saints as they prepared for October 17 and the game against Villa Park. Half-time was highlighted by crowning of our Homecoming Queen, Heather Marsh and her princesses Raylin Dority, Gail McAllister, and Eloise Huerta, amid a thousand red, white and blue balloons followed by spectacular fireworks. After coming from behind to defeat V.P. 7-3, Saint fans and alumni met at Sac for the Homecoming Dance to top off a fantastic week.

# Color Day 1976

An ice cream social, rootbeer drinking contest and pickle eating competition highlighted lunchtime Color Day activities for 1976. A big change came this year when the traditional Clash Day was re-named Larry Snyder Day in honor of Mr. Snyder's impeccable taste in clothing.

The climax of the spirit-filled week came Friday night, when the Saint basketball team defeated Magnolia. At half-time, finalists for the Color Day Court were announced.

After the game, a dance was held at SAC where Color Day King Greg Lerum, Queen Bernice Muratalla and their court were crowned, finalizing the week's festivities.

# Lil' Abner

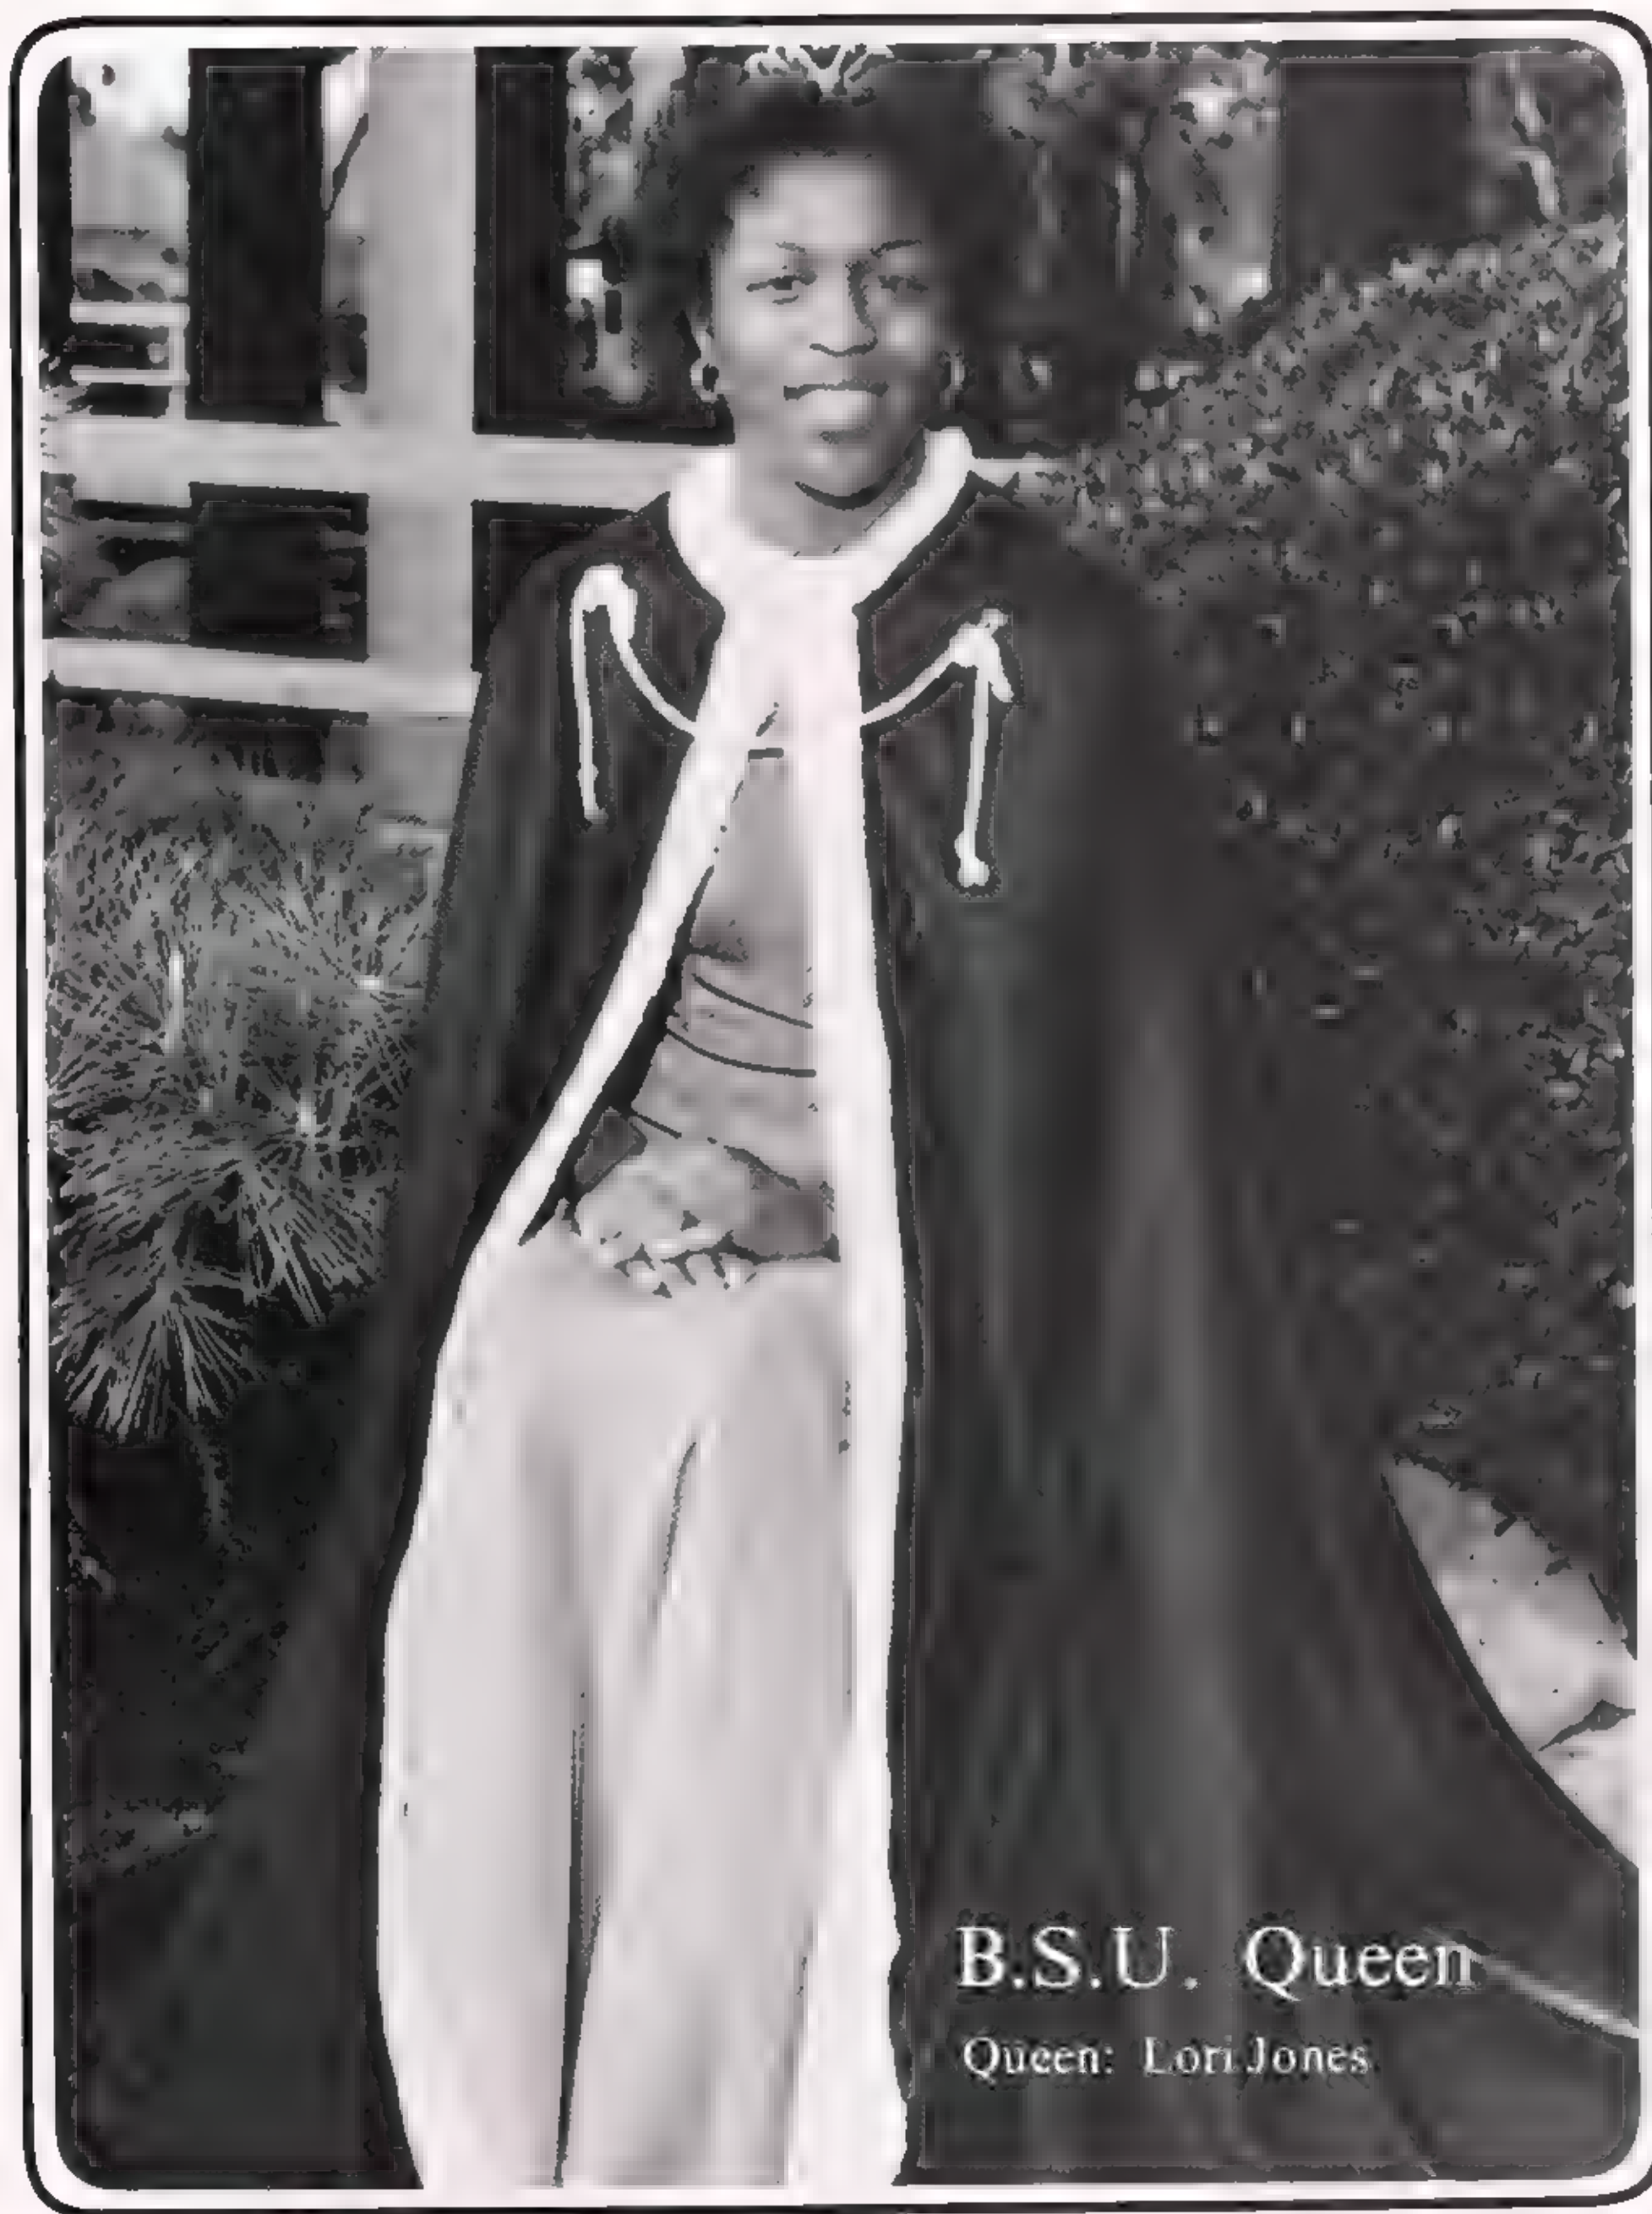

"Lil' Abner," preformed on March 4, 5 and 6, was set in the fictitious town of Dogpatch, USA. Daisy Mae takes off after Abner for the annual Sadie Hawkin's Day and gets what she wants. But, at the same time, a big businessman from the government, General Bullmoose, is trying to steal a secret formula for Yokum-berry tonic that is supposed to make a man more masculine when taken. Many involved and interesting things occur before this satire ends.

## Black Culture Week

The B.S.U. Club is now in its fourth year of duration. The active club has had a very prosperous year and the goals set up have certainly been achieved. The club had many activities and as usual the Black History Week was an inspiring event for cultural awareness was certainly learned. Though the club is young in age, unity is the key to its success. Along with dedication, these two ingredients will always make a club successful. Truly to be young, gifted and black is where it is.

The background of the page is a complex, abstract pattern of black and white geometric shapes. These shapes, which include various polygons, lines, and dots, are arranged in a way that creates a sense of depth and movement, resembling a stylized, high-contrast landscape or a microscopic view of a material. The pattern is dense and covers the entire page, with the text elements placed in the white spaces.

# Board of Control (BOC)

The BOC had nowhere to go but up, up, and away -- and so they did (with their spirit balloons.) After grabbing second place in volleyball at camp, they stayed in shape by taking good care of ASB activities.

Accomplishments of Santa Ana High's BOC ranged all the way from putting on great dances to...washing cars on a Saturday...making banners for the football games...impressing BOCs from other high schools...and practicing their British for the redcoats just in case they should invade us again.

This past year was highlighted by the many zany antics of a few certain members, and Crawford's one-of-a-kind meetings (Hey, you're out of order!).

Long hours of hard work have been clocked by the BOC. The fantastic Homecoming half-time show chaired by Glasser typifies the numerous climaxes reached by the BOC. Under ASB President Carl Crawford, the school's seen a terrific year.

# Class Cabinets . . .

## Seniors/"Spirit of '76"

After sponsoring several successful Rec Nights, a talent show, and a Senior Week among many other things, the spirit of '76 indeed lives within the 1976 graduating class. This class is definitely the greatest and most spirited one of SAHS, making the bicentennial year a most memorable occasion at Saintland. The Senior Cabinets should be saluted for their work.

1ST SEMESTER CABINET? YES!/FRONT: Don Garrett, Gail McAllister, Reggie Traylor, Patty Beltran, Kirk Belsby. 2ND ROW: Kerrie Imagawa, Chuck Bobb, SEC Susy Pleshe, PRES Bob Brown, VICE-PRES Dawn Pickering, Doug Cast, Laura Seltzer, Eric Schwab. CAMERAPHOBIA: Jovita Gonzalez, Thom Taylor, and the 2ND SEMESTER SENIOR CABINET.

## Sophomores/"Locomotives of '78"

The Sophomores chugged away from Station '75 early one morning to do all sorts of things. Some of their accomplishments were to sell '78 buttons, have a couple of bake sales, sponsor the Spirit Trains competition, and plan Sophomore Week. The Locomotives will really roll next year when they must raise money for the Prom and company.

FRONT: Johnna Garcia, Benita Baldwin, Jackie Sidor, Gerardo Saldivar, Stephanie Preston. 2ND ROW: VICE-PRES Sally Avila, PRES Tami Fields, SEC Karen Kempa, Terri Perez, Heather Halleen, Julie Matsushita. CAMERAPHOBIA: Deryl Bell, Tom Doughty, Kevin Fleming.

## Freshmen/"Might of '79"

The Freshman Cabinet did their best to keep the '79ers floating above the rough waters of Santa Ana, and away from the Seniors' grinning version of JAWS. Though they left the upperclassmen bored and unimpressed with their antics, the Freshmen caught some eyes sporting their unusually flashy '79 buttons. (Good buttons are hard to find nowadays.) They even had a few good bake sales and held a skating party. Compared to the work of Freshman classes in the past, this year's cabinet did an excellent job. Much is expected of these future Sophomores, Juniors, and Seniors of Santa Ana High.

## Girls' • State • Girls' • State

Relationships with people are one of the most important things I learned at GIRLS' STATE, because if one doesn't understand people then one can never understand politics (and maybe even life?).

At GIRLS' STATE we set up our own city, county, and state governments. We held conventions for our two political parties, the Whigs and the Tories. Elections were also held for all offices and I was elected Supreme Court Justice. We had our own State Assembly which made actual laws that all future Girls' Staters must obey.

It was an unforgettable experience, and I thank Santa Ana High and the American Legion Auxiliary for letting me be a part of it.

## Boys' • State • Girls'

BOYS' STATE is a "hands-on" political science laboratory. It is sponsored by the American Legion and held at California State University of Sacramento.

Delegates from every high school in California ran for offices at city, county, and state government.

We (the delegates) learned that, among many things, democracy does have its problems but we as a country can make it work to its full potential. I'd recommend any young man who is a junior to shoot for this honor.

Dear SAHS,

I think this is a good opportunity to let you know about my staying here in the U.S. as an AFS student, and also about my experiences and impressions.

In Peru, I graduated from High School. I became involved with AFS while studying English in a North-American Institute, but I really didn't plan on going abroad. I think that this will be an experience that I will never forget.

I think that it is great to get to know people in spite of languages, races, religions, and beliefs. Of course, at the beginning it is kind of scary and you start thinking: How would it be to live with a different family? With new friends? To attend a school with a different system? But as you pass through all of this stuff, you come to the conclusion that people are people.

On the contrary, you learn to except some things. You can not judge something that you really don't know.

This program not only helps you to learn all about other countries, but it also helps you to learn more about your own country by making comparisons or discovering something new.

Love,  
Cheli

Dear Santa Ana High Students and Teachers,

I am Claudia Thies, your foreign exchange student from Germany. I am staying with the Preston family. Stephanie Preston is my host sister.

I am very glad that I came to your school. I enjoyed your school activities very much, which were so new for me.

I got to know so many nice people here at SAHS. Everyone was so helpful when at first I couldn't understand because of language difficulties. But by that kindness I don't feel like a foreigner anymore.

In your school I learned alot: I learned to appreciate and to like different ideas. I got more tolerant and I learned so much about other cultures.

I want to thank you all very much, especially those who helped me to understand your country better.

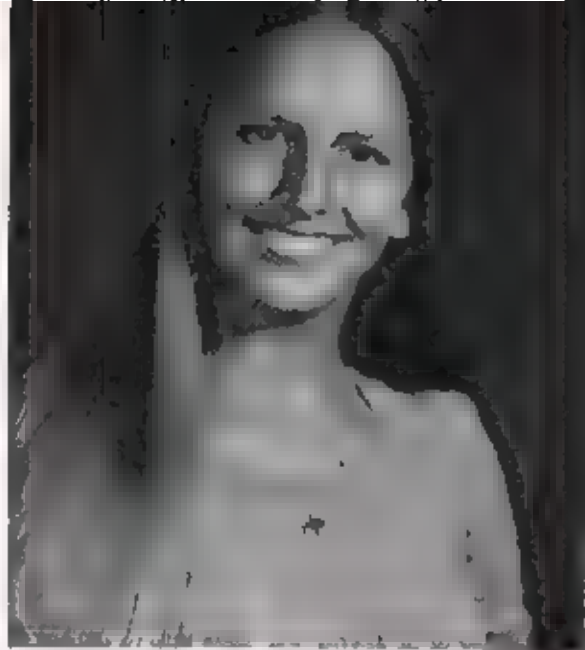

As a big part of my experiences during my stay in the U.S.A. I will remember you very often.

Love,  
Claudia

Melissa with classmates.

I am really having a fantastic time. You cannot measure the value of an AFS experience. There are innumerable new experiences. One learns so much and meets so many people.

Have you ever sat in the middle of a coconut forest and watched someone climb the trees and shake down the coconuts?

Have you ever been to a witch doctor?

Ever been to a village where the houses are all on stilts and the people wear no clothes?

Or walked through paddy fields with buffalo walking next to you?

These are only a few of the things I've done.

I strongly encourage all students who will be juniors and seniors next fall to join the AFS club and to apply for the American Abroad Scholarship. The club welcomes freshmen and sophomores too. You'll have a great time in this "alive" club.

## AFS

The American Field Service is an organization that supports the exchange of students between the United States and many other countries in the world. The AFS has many fund raising activities through-out the year in order to earn money for their exchange programs. # Dance Reperatory

Dance Repertory is devoted to the interests of modern dance and jazz students. This year the club held popcorn sales, put on a dance-a-thon, had a Christmas mini-concert, and participated in master classes taught by the likes of Stephen Peck, Gloria Newman, Lula Montez, and Chuck Davis. A first for the Repertors was the hosting of a choreographer's concert in the SAHS auditorium. Four other high schools were invited to "do their thing" — Brea-Olinda, Orange, Saddleback, and Villa Park.

MECHA, a movement dedicated to Mexican-American youths, is SAH's largest club. This year its members worked at car washes, bake sales, and Cinco de Mayo activities. Debbie Velarde was crowned MECHA queen, and a dance was held in her honor. A trip to Universal Studios was also taken.

## Black Student Union (BSU)

The primary goal of BSU is to promote the development of black culture here and outside of Santa Ana High School. This club was established way back in 1971 and now five years later, during America's bicentennial, its sphere of influence can still be keenly felt.

Activities of the '75-'76 BSU have included the granting of scholarships to deserving black students, the hosting of "soul food" luncheons, and the planning of Black Culture Week. During one of the two assemblies the club sponsored, Lori Jones was proclaimed BSU queen over a field of tough competitors.

# Mexican-American Latin Organization (MALO)

MALO is a group composed of students who are able to speak both the English and Spanish languages quite fluently. They had several candy sales to raise money for their club treasury. Their initiation rites consisted mainly of riding on tricycles and having to enter a MALO dance contest. Every year the club holds an assembly dealing with the nifty 50's, 60's, and 70's.

Farewell to you and the youth I have  
    spent with you.  
It was but yesterday we met in a dream.  
    You have sung to me in my aloneness,  
    and I of your longings have built  
    a tower in the sky.  
But now our sleep has fled and our dream  
    is over, and it is no longer dawn.  
The noontide is upon us and our half  
    waking has turned to a fuller day,  
    and we must part.  
If in the twilight of memory we should  
    meet once more, we shall speak again  
    together and you shall sing to me  
    a deeper song.  
And if our hands should meet in another  
    dream we shall build another tower  
    in the sky.

-Kahlil Gibran

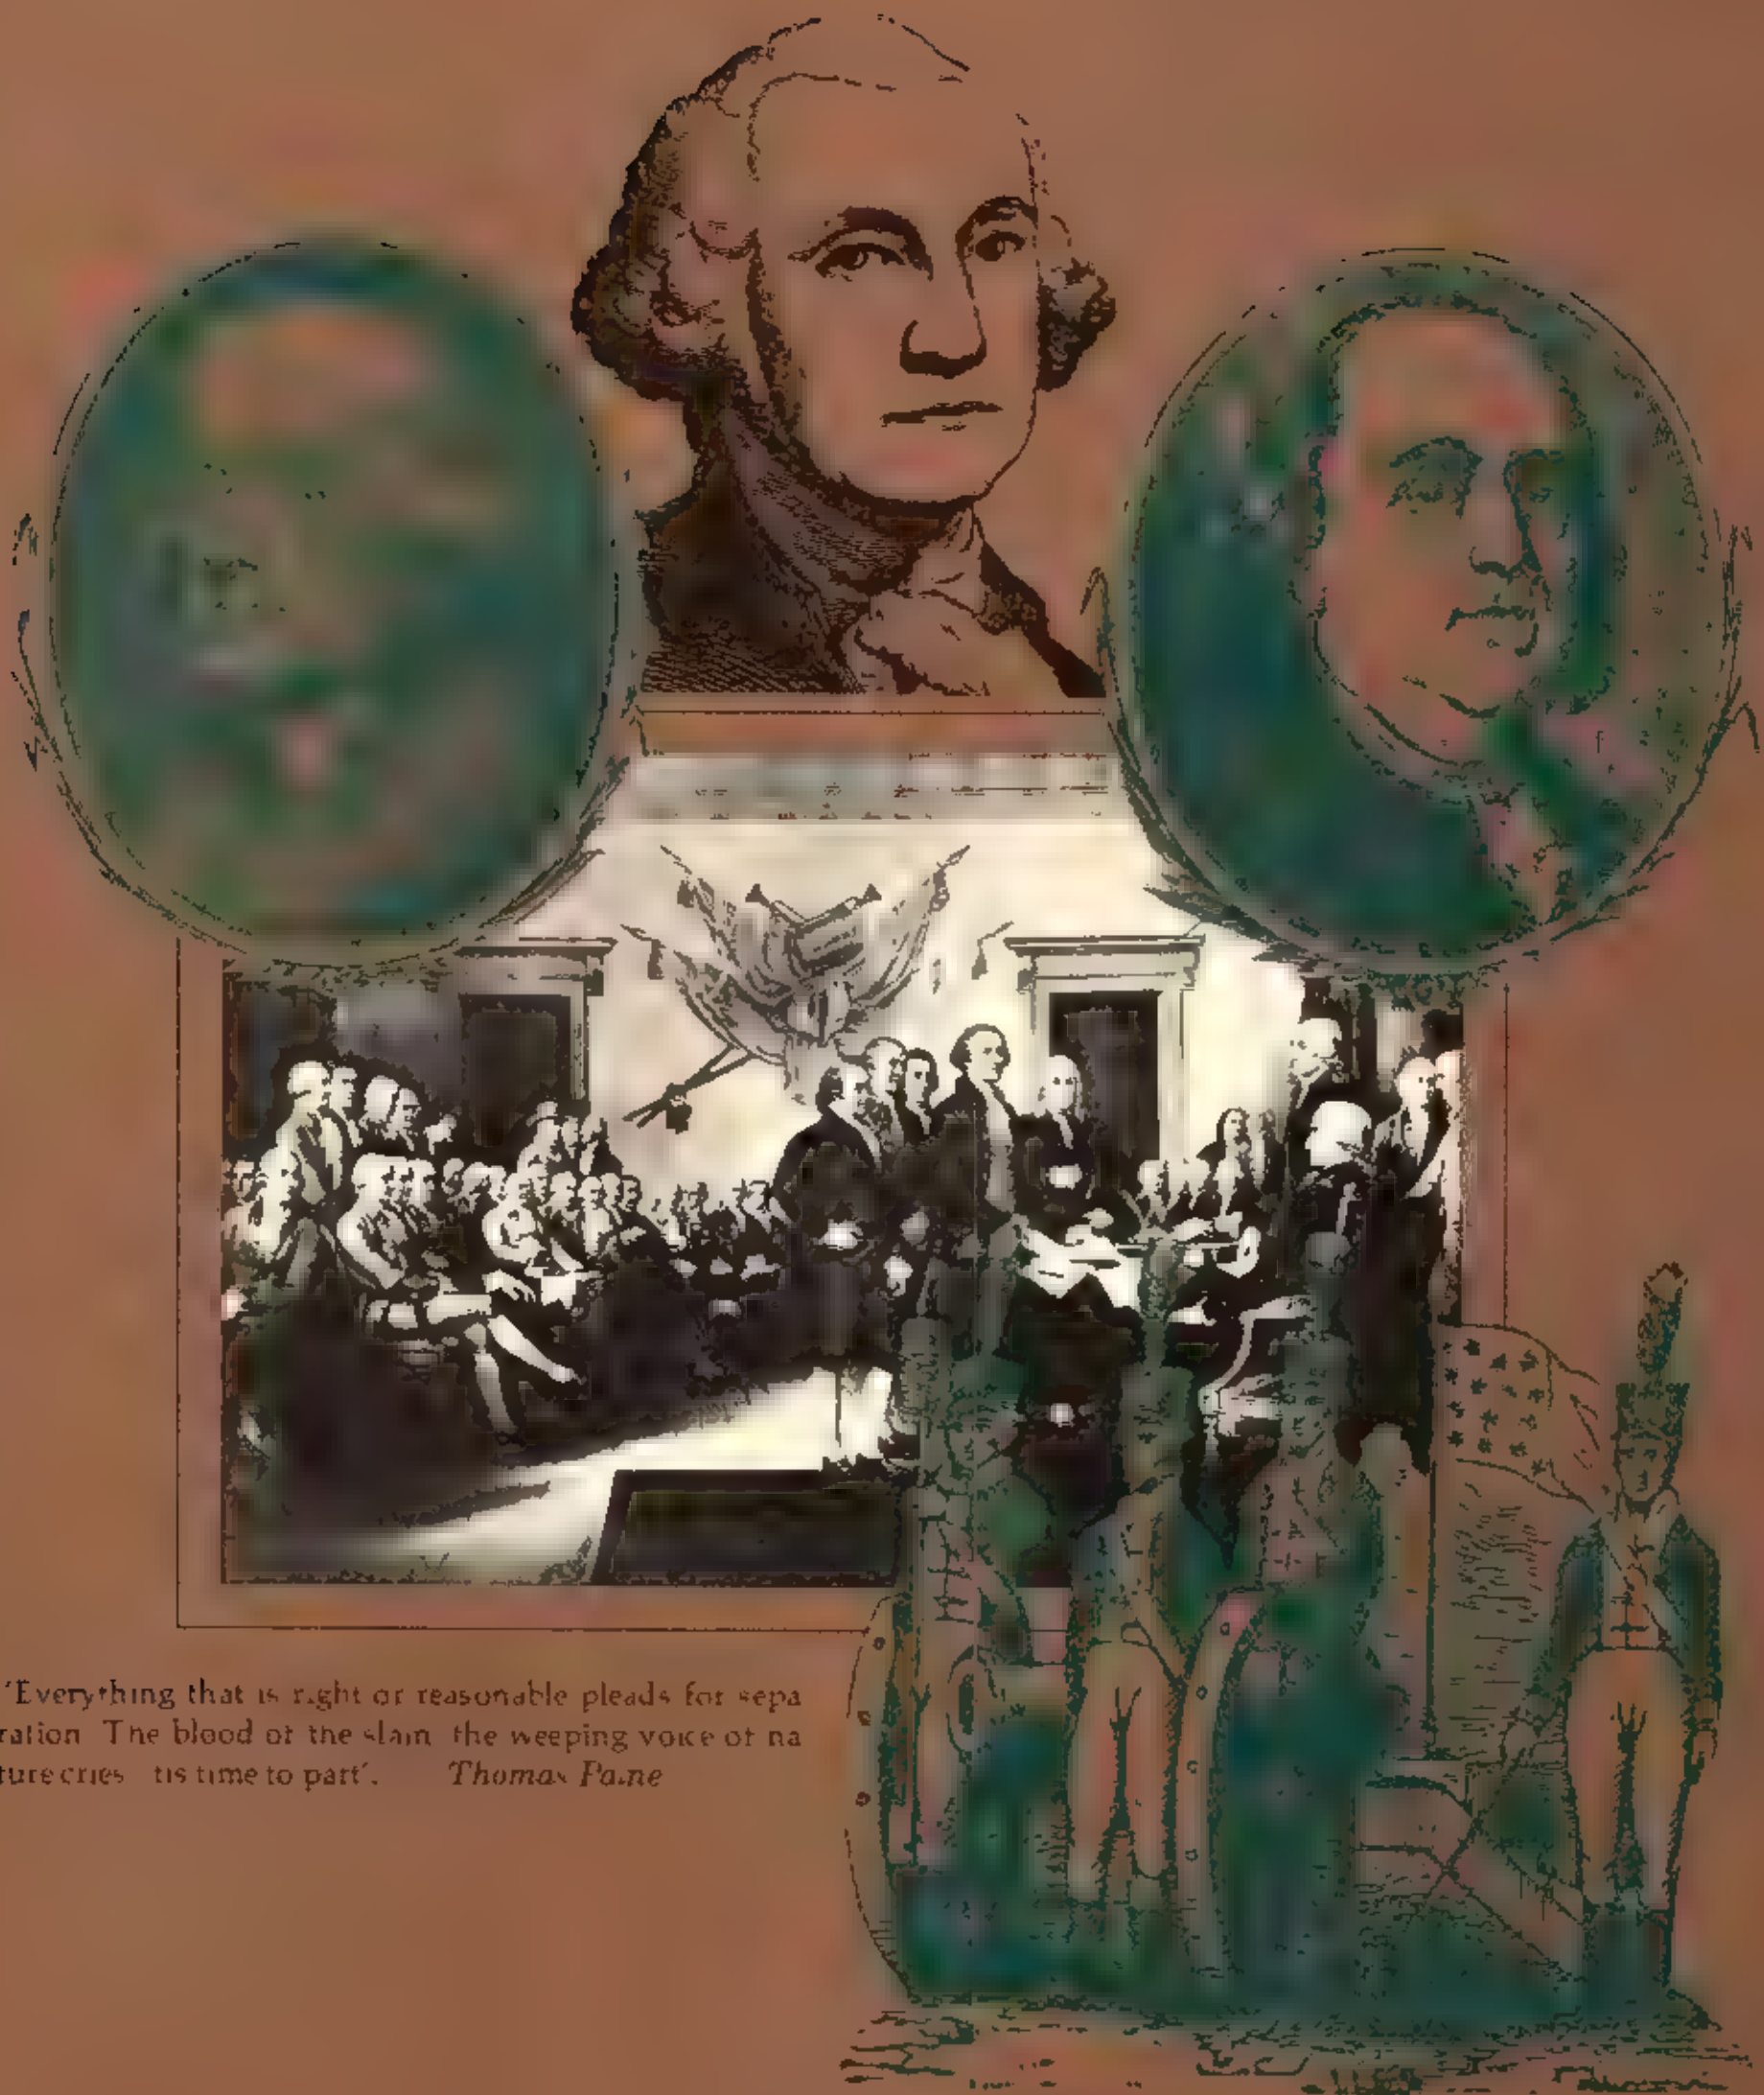

## THE FIRST 200 YEARS

A knowledge of American history is an invitation to experience the accomplishment, drama, tragedy and hope of an infant nation struggling to grow up. Sturdy, determined pioneers hacked away at the edges of a raw continent and, with blunders and achievements alike, modeled a country with a spirited nature and a united commitment to individual liberty for every one of its citizens. Americans, great and not so great, have given us a heritage to carry on and improve upon. Farmers and soldiers, industrialists and merchants, dreamers and leaders, are all there in two centuries of progress.

But the maturing isn't finished. You'll find the boundaries of growth as endless today as when our forefathers first envisioned them. You can seek out your own destiny with the wisdom and judgement which comes with re-creation of the past. Your knowledge, dreams and industry will carry on through many more centuries of living history.

'Everything that is right or reasonable pleads for separation. The blood of the slain, the weeping voice of nature cries 'tis time to part'. *Thomas Paine*

# CHAPTERS OF AMERICAN HISTORY

The Stamp Act of 1765 was an attempt by England to tax items that were wholly American. The colonists reacted in seething resentment which erupted into angry protestations. The first blood of the American Revolution was spilled during one such incident at Boston in 1770. Several Americans lost their lives over a snowball thrown at a British sentry.

In the fight to achieve commerce equality, the United States found itself in a naval war over shipping lanes. Fort McHenry was heroically held during a British naval bombardment, and the stars and stripes still flew after a night of hard fighting. The next morning Francis Scott Key penned the immortal words of what would become the national anthem.

Settlers had to have permanent access to the new lands, so canals and bridges were built to carry stages and wagon trains loaded with machinery destined for settlements in the West. The pioneers foresaw great wealth in the cheap acreage that was available.

Frontiersmen cleared the wilderness, built settlements and drove back the Indians. The Pony Express and the telegraph became primary means of communication.

Agriculture was the wealth of the country. American inventions of the time were often related to working the soil. The McCormick Reaper, mowing machines, textile looms and the cotton gin were instrumental in the settling of new frontiers.

In 1848, James Marshall found gold in the race of a sawmill he was building for John Sutter at Coloma, California. The lust to get rich quick was the force behind this biggest and gaudiest gold rush ever.

While "gold rush fever" gripped the country, states were increasingly more divided on the slavery issue. Civil war broke out in the East. This "Brothers War" was bitterly fought and, though the scars remain even today, slavery was abolished.

Cities grew at an alarming pace, often without regard to the limits of safety. The great Chicago fire of 1871 burned the bustling cattle market empire beyond recognition. But the pioneer spirit was not broken. Chicagoans began rebuilding and preparations were underway to celebrate the 100th birthday of the country.

The "Iron Horse," carrying homesteaders, greatly helped settlement of the new country. The first transcontinental railroad connected the country at Promontory Summit, Utah on May 10, 1869.

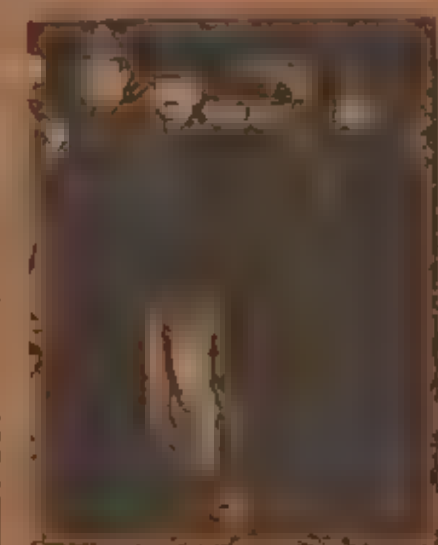

Transportation was setting the pattern for the American way of life. The country became a mobile society with electric trolleys, automobiles, farm machinery, and bicycles, all the rage. Along with the accessibility of travel came a new era of nationalism.

A World War called upon the nation's young men to enlist and fight. After the war in Europe, the nation pulled itself together and industry flourished once again. A carefree America built telephones, light bulbs, electric generators, stock market ticker tape machines, phonographs, and a wealth of inventions from the fertile minds of its young inventors. Baseball became the nation's favorite pastime.

Black Thursday, October 24, 1929, saw the American stock market crash to the lowest level in history. Panic set in as the unemployment level skyrocketed. The country was in its worst economic crisis. Slowly but surely, the wounds of the crash, the 'dust bowl' and poverty healed.

The steel industry geared up for the revival while rumors were whispered in the Roosevelt administration of another impending war. The nation's leaders worried about Japan's actions at Pearl Harbor!

Industrial production reached a peak during the war years. Upon their return from four years of battle, the veterans forged ahead with an eye for a better world. The nation's leaders were cautious citizens of past decades.

Huge strides were being taken in the scientific field. Television became a part of every family's life. National events were household topics — while they happened — thanks to the new medium. Individuals and groups were seen 'on the air.' The nation's leaders were cautious citizens of past decades.

Nearly 100 years of struggling for equality. In 1964, President Lyndon B. Johnson signed the Civil Rights Act of 1964 into law. The Act outlawed segregation in any public place.

As the nation approached its 200th birthday, the world's energy sources and natural resources were being used up faster than they could be replenished. Americans once again began to look for ways to save nature from the neglect of mankind and ways of preserving precious fuel without damaging that balance of nature were the objectives of Americans across the country.

Pioneering efforts in outer space exploration. This time, the U.S. was first to build a 'sky-lab' for more scientific study.

America is still learning and growing after a mere 200-year infancy. The original determination of our forefathers was told again in the words of Neil Armstrong as he made the first step on the moon: "A small step for man, but a giant step for mankind."

## THE CHANGING NATION

Ownership of land had been just a dream to most of the colonists from feudal England. With the great expanse of cheap land opening up in the West, the dream became reality.

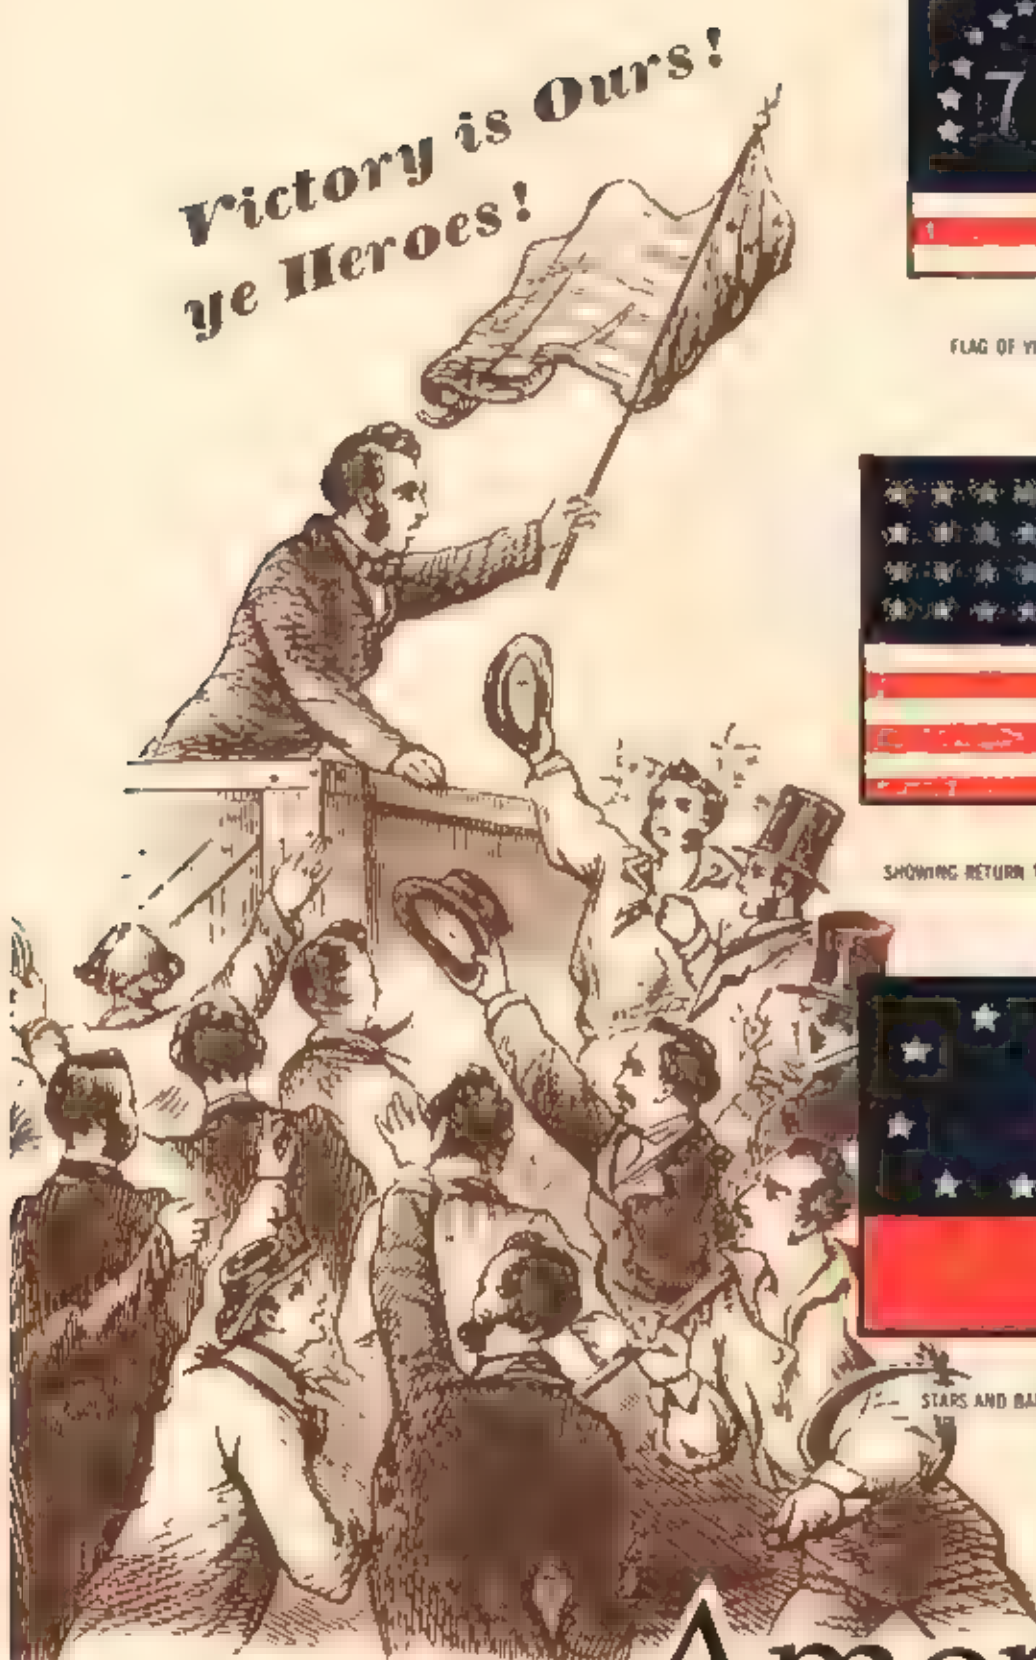

The Louisiana Purchase of 1803 opened the first sizable frontier in the Midwest, but the nation was not ready for it yet. It took a growing market in the East, where land was getting high-priced and scarce, and development of good transportation, to really start the frontier movement.

The Gold Rush caused hordes of settlers to take various routes to the Pacific Coast and its yellow riches. The railroads brought farmers and ranchers, along with the miners, who decided to stop all along the routes and

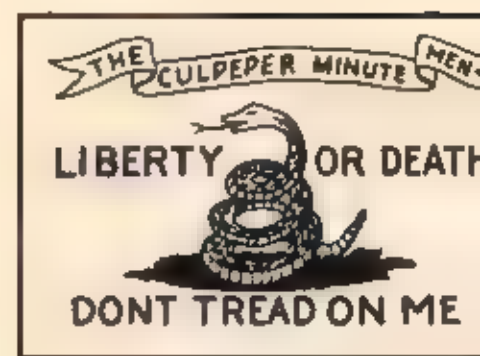

build their homes. Railroads were instrumental in the quick civilization of the West, bringing people in numbers so large that the resentful Indians were finally pushed back into unwanted and infertile areas.

America became a haven for immigrants from every nation as freedom beckoned them to the teeming cities of the East, the plains, and the rich west coast farmlands.

Sick of the Civil War and with their own lands divided up and lost, many Southerners set out to "begin again" in the virgin territories. "Westering" soon became the national tradition as North and South moved together toward a new life. Americanism was advanced socially, by the hard working, bare-fisted types who settled the frontiers.

# NECESSITY IS THE MOTHER OF ....

PHONOGRAPH

Without realizing it, England instilled in the colonists the individual purpose and ingenuity that necessity breeds. With trade goods cut to a minimum, determined young leaders of the time set out to find ways of surviving without support from the Mother Country.

Agricultural methods and machines and labor saving devices were designed by our forefathers. As frontiers opened, Yankee genius had to conquer natural barriers in the wild new-country, so suspension bridges were invented and methods of transportation were perfected for the purpose of opening the untamed areas. Later, they sought to section off the land with the revolutionary and controversial invention — barbed wire.

Cooper's 1-horsepower **Tom Thumb** train in 1830 and later, automobiles like the first Model T, and the 4-horsepower airplane; became American modes of travel from city to city and coast to coast.

Americans knew that the fertile lands of this nation would produce unequalled harvests if machines were designed to take over for man. They knew also that trade routes were difficult to travel and manufacturing would have to be done close to home. The cotton gin, textile looms, drill presses and a reaper which could cut six times as much grain as a hand scythe were some of the tools invented.

Protection for themselves and for their young country prodded inventors like Eli Whitney to perfect firearms and others to work on plans for the first submarine. Young inventors like Alexander Graham Bell and Thomas Edison (called the nation's most valuable citizen) visualized machines that would light the country and open up communication with those in the far corners of the nation. The telephone, telegraph, phonograph and the first light bulb were discovered in the late 1800's and early twentieth century. This American way of doing for oneself inspired many to become inventors in their own right. Some sought to save labor and mass-produce for profit while others envisioned not only riches, but excitement and adventure as they discovered ways to defy nature.

Throughout the past 200 years the American mind has been unleashed to take whatever paths necessary to fulfill the needs. In the last half-century, the pace of discovery has been overwhelming and inventions for the taming of the universe lie in the grasp of America while the habit of "finding a way" is ingrained in its people. The seeds of industrial America were sown by these inventors resulting in today's mechanized society.

# THEY MADE THEIR MARK

Men and women who helped shape America's history

**THOMAS PAINE**, a bankrupt Quaker cordemaker, sometime teacher, preacher and grocer, wrote the most brilliant pamphlet of the American Revolution. His words in *Common Sense* reflected longings and aspirations that have remained part of American culture to this day.

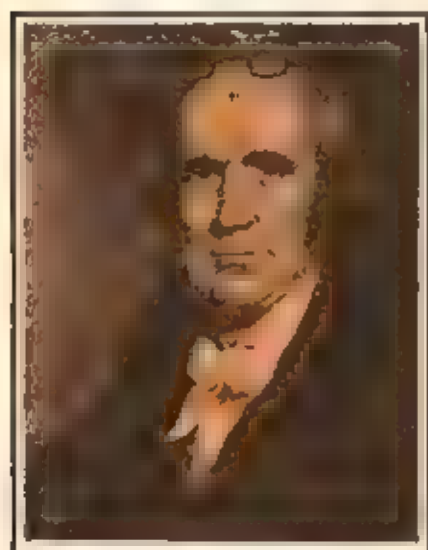

**DANIEL WEBSTER** chose law as a career and went on to become well-known in the courts and in politics. He was twice Secretary of State with an eye always to the Presidency which eluded him.

**DOROTHEA DIX** worked her entire adult life for reform of the existing penal and mental institutions. In the mid-1800's, the first state hospital in the nation at Trenton, New Jersey was a direct result of her efforts.

The creator of the Cherokee alphabet, **SEQUOYAH**, was an artist, writer and silversmith. He used a simple 1821 English primer to compose the characters. The famous redwood trees of the Pacific coast bear his name.

Chief Justice **JOHN MARSHALL** established fundamental principles of American constitutional law. He is noted for his precedent-setting declaration of a Congressional act as unconstitutional. He served through five administrations, from 1801-1835.

Born a slave in Maryland, **FREDERICK DOUGLASS** taught himself to read and write secretly and at 21 escaped to freedom. He was an ardent abolitionist campaigning successfully for Negro suffrage and civil rights.

"The New Colossus," a sonnet composed by **EMMA LAZARUS** in 1893 is inscribed on a bronze tablet at the base of the Statue of Liberty. She organized relief for Jews and helped fugitives from the Czar's ghettos to establish homes in America.

**AMELIA JENKS BLOOMER**, best known for a mode of dress she adopted during her campaign for equal rights for women. Though ridiculed until she gave up the costume, the term "bloomer" came to symbolize woman's bid for individual freedom.

**ABRAHAM LINCOLN** epitomized the American dream of a humble young man ascending to the highest office of the land. He was superbly skilled at analyzing complex issues and translating them into meaningful words for the public. He was devoted to the preservation of the Union.

**HARRIET BEECHER STOWE** wrote *Uncle Tom's Cabin* in an effort to make the whole nation realize the inhumanity of slavery. Her book resulted in one of the most popular and controversial plays on the American stage. The Civil War was kindled by this work.

**HORACE GREELEY'S** admonition to "Go West young man" was a rallying cry of the pioneers of America. He was founder and editor of the *New York Tribune*. He was best known for his philosophy of social reform and his unsuccessful bid for the Presidency in 1872.

**JOSEPH PULITZER** was the first journalist to reach a truly massive audience. His *New York World* newspaper was the symbol of "yellow journalism" with its sensationalism aimed at the common man.

**ANDREW CARNEGIE** was a giant in the railroad and steel industries. He believed that it was the duty of a rich man to distribute his wealth during his lifetime. To that end, he established 2800 libraries and many cultural halls throughout America.

A lifetime passion for machinery led **HENRY FORD** to Detroit where, in 1896, he completed his first motor vehicle. The Ford Motor Company manufactured the first "Model T" in 1909.

One of the most elementary symbols of the American way of life was established when **J. EDGAR HOOVER** and his Federal Bureau of Investigation "G-men" set out to clean up the country. His career spanned over 40 years.

The motion picture industry was revolutionized in America and **DAVID WARK GRIFFITH** became known as the "Father of the film art" and "King of directors" for his part in this revolution. His camera techniques were the pioneering steps of the industry.

Serving an unprecedented four terms as President of the United States, **FRANKLIN DELANO ROOSEVELT** was a popular leader who made extensive use of fireside radio chats to explain his plans and generate enthusiasm to push them through Congress.

**ROBERT FROST's** poetry was clear, understated, well metered and told the stories of rural America. He was a four-time winner of the Pulitzer Prize and has been called America's poet laureate.

A plain, homely woman with tremendous appeal to the masses, who was always in the "thick of things," describes **ELEANOR ROOSEVELT** and her lifetime of politicking beside her husband during his four terms.

**THURGOOD MARSHALL** is the first Negro to serve as a justice of the Supreme Court. His law career was aimed primarily at civil rights cases.

The crippling poliomyelitis was conquered by **DR. JONAS SALK** in 1953 after more than 25 years of research. Polio was reduced by 98% in less than ten years. SALK's research continues in California at the Salk Institute.

**MARTIN LUTHER KING** was a leader in the cause of civil rights. He had been a pastor before turning to the cause of segregation. His leadership earned him the Nobel Peace Prize in 1964. He was assassinated by James Earl Ray in 1968.

Lieutenant Colonel **JOHN GLENN** started America's travels in outer space when he became the first American to orbit the earth. He had been an aviator in World War II and a test pilot in peacetime.

**GERALD R. FORD**, the first President to achieve the office without an election. In 1974, through a series of scandalous events, the Nixon administration toppled and FORD reached the position through approval by Congress.
